***Part B Deductible—\$183 per year**

The standard Part B premium amount in 2018 is \$134 or higher depending on your income. However, most people who get Social Security benefits pay less than this amount (\$130 on average). Social Security will tell you the exact amount you'll pay for Part B in 2018.

You pay the standard premium amount (or higher) if:

- You enroll in Part B for the first time in 2018.
- You don't get Social Security benefits.
- You're directly billed for your Part B premiums.
- You have Medicare and Medicaid, and Medicaid pays your premiums. (Your state will pay the standard premium amount of \$134 in 2018.)
- Your modified adjusted gross income as reported on your IRS tax return from 2 years ago is above a certain amount.

****Part D Monthly Premium**

The chart shows your estimated prescription drug plan monthly premium based on your income. If your income is above a certain limit, you will pay an income-related monthly adjustment amount in addition to your plan premium.

2018 Part D National Base Beneficiary Premium — \$35.02

This figure is used to estimate the Part D late enrollment penalty and the income-related monthly adjustment amounts listed in the table. The national base beneficiary premium amount can change each year.
