

Your Social Security Statement: What's in It for You?

The Social Security Administration (SSA) provides personalized Social Security Statements to help Americans age 18 and older better understand the benefits that Social Security offers. Your Statement contains a detailed record of your earnings and estimates of retirement, disability, and survivor benefits — information that can help you plan for your financial future.

You can view your Social Security Statement online at any time by creating a *my* Social Security account at the SSA's website, ssa.gov/myaccount. If you're not registered for an online account and are not yet receiving benefits, you'll receive a Statement in the mail every year, starting at age 60.

Benefit Estimates

Your Social Security Statement tells you whether you've earned enough credits by working and paying Social Security taxes to qualify for retirement and disability benefits and, if you qualify, how much you might receive. Generally, retirement benefits are projected for up to nine claiming ages, including full (ages 66 to 67), early (age 62), and late (age 70). If you qualify, you can also see the benefit amount your survivors might receive in the event of your death.

The amounts listed are estimates based on your average earnings in the past and a projection of future earnings. Actual benefits you receive may be different if your earnings increase or decrease in the future.

Amounts may also be affected by other factors, including cost-of-living increases (estimates are in today's dollars) and other income you receive, and are based on current law.

Annual Earnings

In addition to benefit information, your Social Security Statement contains a year-by-year record of your earnings. This record is updated when your employer reports your earnings (or if you're self-

employed, when you report your own earnings). Earnings are generally reported annually, so your most recent earnings may not yet be on your Statement.

***More than 50 million individuals
have established online Social
Security accounts.***

Because Social Security benefits are based on average lifetime earnings, it's important to make sure your earnings have been reported correctly. Compare your earnings record against past tax returns or W-2s. If you find errors, let the Social Security Administration know right away by calling (800) 772-1213.
