

Habitat For Humanity National Women Build Event, Waukesha

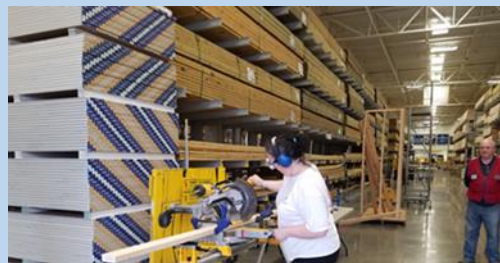

On May 10th, Liberty Financial Group, Inc., and some of our clients took part in the National Habitat for Humanity Women Build in Waukesha.

Habitat for Humanity partners with people in your community, and all over the world, to help them build or improve a place they can call home. Habitat homeowners help build their own homes alongside volunteers and pay an affordable mortgage. With public support, Habitat homeowners achieve the strength, stability and independence they need to build a better life for themselves and for their families.

A couple weeks before the event, some of the ladies attended a special construction training session at Lowes to learn the proper use of power tools, and basic construction techniques.

The day of the local Women Build event started bright and early. There were approximately 30 volunteers on-site, including several professional contractors. Our part in the build was to hang the rim board, add insulation, install floor the joists, and start the subfloor. (Our house is at the top of the photo, with just an open basement.)

We measured, measured again, cut, lifted, hammered, nursed bruised digits, and developed an appreciation for the construction trades.

The name of the event may be Habitat for Humanity- Women Build, but that doesn't exclude men from participating. The guys got to demonstrate their building skills and knowledge.

Team Liberty truly put the TEAM in team work!

Liberty Financial Group, Inc. loves to give back to the community.

When everybody pitches in, we can make anything happen!

The end of the day...

We got a lot got done! The next crew of volunteers were able to finish the floors, and start putting up walls. The project will be finished sometime in October.

We would like to give a huge Thank You to the ladies who joined us in the build!

Contact your local Habitat for Humanity chapter to volunteer your time, or make a donation. You can also help by visiting your local Habitat for Humanity ReStore.
