

# Carole Milos

## FEATURED ARTIST

Carole Milos attended art school at Milwaukee Institute of Art and Design, (MIAD) but then spent over 20 years working in business. Being an optimist, she chose to make a change and March 1st is the anniversary of her first year as a full time artist.

She uses colorful alcohol inks, acrylic paints, and watercolors. For the display in our conference room, she prepared a new "collage based" concept. This series of abstract art carries an underlying theme of money and prosperity. Be sure to stop in and check it out. You will be among the first to see her "money trees" made from discarded "Fed Shreds."

Carol has an amazing talent for capturing the feeling of her subjects. Her website, [www.artstudiowi.com](http://www.artstudiowi.com), showcases her variety and talent as she starts to discover her artistic strengths. She lives and works in West Allis, WI with her CPA husband. They have two adult children.
