WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?

We offer investment advisory services to retail investors, including individuals, families, small businesses, trusts, estates, as well as charitable organizations, corporate pensions, and profit-sharing plans. Our advisory services include wealth guidance/financial planning, asset management, and employer-sponsored retirement plan services. We will meet with you to understand your current financial situation, existing resources, goals, and risk tolerance. Based on our interview and questionnaires, we will then recommend the service and investments that will help you meet your financial objective. We monitor the underlying assets or outside managers on an ongoing basis. Clients will receive a quarterly report from their custodian and market communication from us at least quarterly.

We manage accounts both on a discretionary basis and non-discretionary basis. The level of discretion we have is in the custodial agreement. The custodial agreement will remain in place until terminated or modified. If you have a non-discretionary account with us, you as the client makes the ultimate decision regarding the purchase or sale of investments. Additional information about our advisory services is in [Item 4 of our Form ADV Part 2 A](#)

CONSIDER ASKING US THESE QUESTIONS:

Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education, and other qualifications? What do those qualifications mean?

WHAT FEES WILL I PAY?

Each client will enter into an agreement that describes our services and fees. We charge fees in several ways depending on the specific services, including a flat fee, an hourly rate, a percentage of the client's total net worth, a percentage of client's total investable assets, and/or a percentage of the assets. Our fees start at 1% annually and decrease as the assets under management increase with minimums based on services provided. Our fees vary and are negotiable. The fees are calculated based on the service. Fees based on your assets under management are generally calculated on the average daily balance of the account and charged based on the agreement either annually, semi-annually, or quarterly. Flat fees are deducted one-time or annually. Hourly fees have a minimum of \$200 per hour. You will also pay fees in addition to our fees, such as certain charges imposed by custodians, brokers and other third parties such as custodial fees, trade commissions, deferred sales charges, 12b-1 fees, odd-lot differentials, transfer taxes, wire transfers alternative investment processing fees, electronic fund fees and other fees and taxes on brokerage accounts and securities transactions. **Our incentive is to increase the value of your account over time, which will increase our fees over time. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.**

Additional information about our fees is in [Item 4 of our Form ADV Part 2 A](#)

CONSIDER ASKING US THESE QUESTIONS:

Help me understand how these fees and costs will affect my investments.

If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN ACTING AS MY INVESTMENT ADVISER?

HOW ELSE DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us

about these conflicts because they can affect the investment advice, we provide you. Here are some examples to help you understand what this means.

Examples of Ways we Make Money and Conflicts of Interest:

BFWA or persons associated with our firm can buy or sell the same securities that we recommend to you, or in which you are already invested. A conflict of interest could exist in such cases if we have the ability to trade in our best interest at risk to you.

We have a conflict of interest when recommending that you roll over a retirement account such as a 401k or IRA that we do not manage to one we do manage because we will receive a fee for managing these assets.

Conflicts may arise when financial professionals recommend insurance to clients where the financial professionals have an insurance license and receive fees for making insurance recommendations.

When we recommend you custody your assets with Charles Schwab or Fidelity, we receive a direct benefit or certain services not generally available to retail investors. These services do not always directly benefit your account.

Additional information about our conflicts of interest can be found in our [Form ADV Part 2 A Item 11](#)

How might your conflicts of interest affect me, and how will you address them?
