# THE EVOLUTION OF IMPACTfolio®

**Julie McDaniel, CFP®**

**Scott Arnold, CFP®**

**Rebecca Kennedy, CFP®**

IMPACTfolio® was created through a common vision, a passion to be a financial force for good, and friendship. Julie, Scott, and Rebecca met through the Financial Planning Association and joined a monthly study group of financial planners who come together to encourage and share best practices.

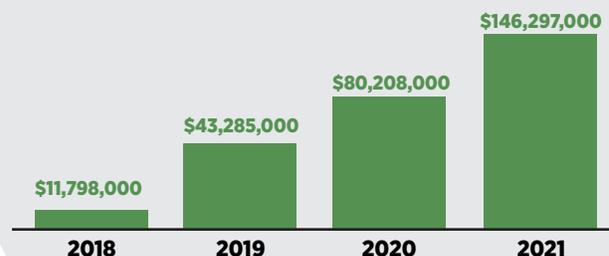

As the years passed and they watched each other's careers evolve, they found that they had similar ideas on how they would like to practice financial planning and serve their clients. They set out to create a firm where "putting clients first" is more than simply a marketing slogan. The three partners spent many hours discussing a potential equal partnership and their visions aligned. [The partnership was born on March 1st, 2019](#). We are proud to be a majority female-owned firm, in which each partner is grounded in the belief that every day is a gift.

## OUR MISSION STATEMENT

We created our firm to be a financial force of good. We radically reject the established norms of the financial services industry. We are leaving behind traditional investing that is focused only on the shareholder. Instead, we are embracing impact investing that takes a stakeholder approach to generate financial, social and environmental returns.

We charge a flat annual retainer fee for both financial planning and investment advisory services. We feel strongly that this structure is the most objective to investors. It helps to reduce the **conflicts of interest** inherent when charging clients a percentage (often 1%) of managed assets.

## Assets Under Management<sup>1</sup>

# INVESTING FOR GOOD

At IMPACTfolio®, we believe that sustainability is not optional. It's not a niche investment strategy that we offer clients if they are "into that kind of thing." It is core to our investment philosophy and what we believe is the only way to properly manage money for the best long-term results.

At IMPACTfolio®, our process involves what we call "triple bottom line" investing by seeking an environmental return, a social return, and a financial return. These three sources of return are what we refer to as our 3 P's: **Planet**, **People**, and **Profit**.

## PLANET

Takes into account environmental concerns like carbon gas emissions, pollution, and water scarcity.

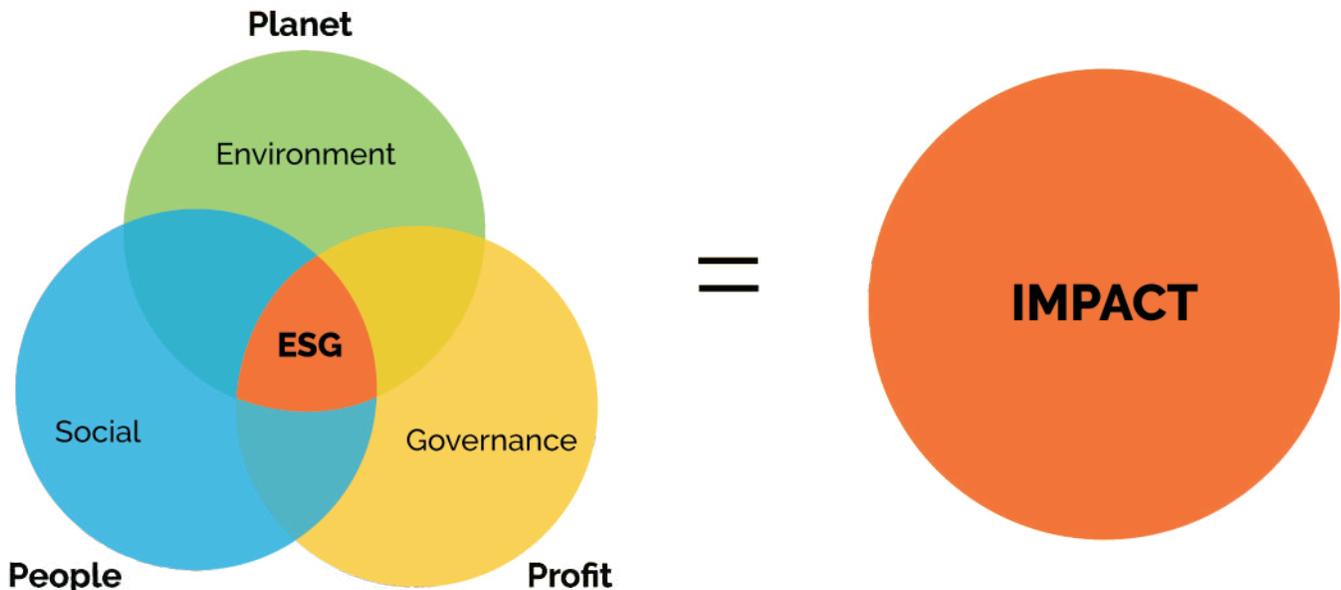

## PEOPLE

involves the evaluation of a company's corporate governance. This includes elements such as executive compensation, corporate accounting practices, board independence, and shareholder rights.

## PROFIT

Pertains to how a company is affecting its customers, employees, and those in the local community.

## IMPACT INVESTING DEFINED

*“Impact investments are investments made with the intention to generate positive, measurable social and environmental impact alongside a financial return.”*

- **Global Impact Investing Network**

## SUSTAINABLE DEVELOPMENT GOALS DEFINED

The Sustainable Development Goals created by the United Nations are the blueprint to achieve a better and more sustainable future for all. They address the global challenges we face, including those related to poverty, inequality, climate change, environmental degradation, peace and justice. The 17 Goals are all interconnected, and in order to leave no one behind, it is important that we achieve them all by 2030.
