Core Growth Equity Composite: The composite contains fully discretionary equity accounts of which at least 85% of assets are invested in equity securities selected by Curran Investment Management and for comparison purposes is measured against the Russell 1000 Index which consists primarily of large capitalization equities. Securities selected for investment are primarily contained within the Russell 1000 and the composite strategy is suitable for an investor whose primary investment objective is capital appreciation.

Curran Investment Management (CIM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Curran Investment Management has been independently verified for the periods July 1, 1998 through December 31, 2020. The verification reports are available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Curran Investment Management is an independent investment adviser, registered with the Securities and Exchange Commission. For the period June 1, 1998 through August 4, 2000, the firm was organized as a registered investment adviser representative of First Albany Corporation. Beginning August 7, 2000, the firm became an affiliate of First Union Securities, which later merged with Wachovia Securities in 2002. As such, the firm was organized as a registered investment adviser representative of Wachovia Securities until December 13, 2004. No material change in personnel responsible for the investment management process occurred. The GIPS rules of portability were satisfied. The firm maintains a list of composite descriptions which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Gross returns have been reduced by transaction costs and net returns have been reduced by all actual fees incurred including where appropriate performance based fees. Most accounts pay a bundled fee which includes investment management and client services fees, execution and clearing fees, annual account maintenance costs and IRA annual fees. The annual composite dispersion presented was an asset-weighted standard deviation before 2020 and is now an equal-weighted standard deviation of gross returns, calculated for the accounts in the composite the entire year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing portfolios, calculating performance and preparing GIPS reports are available upon request.

The composite contains bundled fee accounts as well as two non-fee-paying accounts. The bundled fee will be charged as a percentage of assets under management, starting at 2.5% on the first \$500,000 1.0% on the next \$4.5 million and 0.75% on amounts over \$5 million. Institutional investors opting for a non-bundled fee pay 0.50% on the first \$10 million, 0.45% on the next \$10 million and all accounts over \$20 million are negotiable. Actual investment advisory fees incurred by clients may vary.

The Core Growth Equity Composite was created March 10, 2003 and the inception date is July 1, 1998. Performance presented prior to December 13, 2004 occurred while the Portfolio Management Team was a registered investment adviser representative with two previous firms.

Growth & Income Composite: The composite contains fully discretionary fee paying accounts invested in growth and income securities and for comparison purposes is measured against the S&P 500 Index, which consists of primarily large capitalization equities. At least 90% of portfolio assets are invested in equity securities selected by Curran Investment Management. Accounts in this composite have a greater emphasis placed on dividend yield and dividend growth than the accounts in the Core Growth Equity Composite. The composite strategy is suitable for an investor whose primary objective is capital appreciation and secondary objective current income.

Curran Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Curran Investment Management has been independently verified for the periods July 1, 1998 through December 31, 2020. The verification reports are available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. **PORTFOLIO FOR INCOME
ANNUAL DISCLOSURE REPORT**

Year End	Total Firm Assets (millions)	Composite Assets			Annual Performance Results					
		U.S. Dollars (millions)	% of Non-Fee	Number of Accounts	Composite		ICE BAML US Treasury 1-3 Yr	Composite Dispersion	Composite 3-Yr St Dev	Index 3-Yr St Dev
					Gross	Net				
2020	534	86	1%	345	2.66%	1.87%	3.10%	1.27%	NA	NA

Portfolio for Income Composite: *The composite contains all discretionary accounts of which approximately 90% or more of assets are invested in fixed-income securities and ETF (exchange traded funds) and at least 70% of portfolio assets are invested in fixed-income securities and ETF selected by CIM, LLC – all portfolios will resemble model portfolios created by the Investment Committee specifically for the composite accounts. The majority (70-100%) of the investments purchased will include: investment grade debt investments (held directly or in exchange traded products), CDs and cash equivalents. Between 0 and 30% of the investments purchased will include: non-investment grade debt investments, unrated securities and other investments held directly or in exchange traded products. Constraints imposed by the client that restrict 15% or more of the portfolio will cause the account to be considered nondiscretionary. The combined total of securities not purchased by CIM, LLC, cash and, or mutual funds held in the account must not exceed 30%. For comparison purposes the presentation uses ICE BAML US Treasury 1 – 3 Yr Index, which is priced daily and rebalanced monthly. This index is for general industry-wide comparative purposes only. The composite investment strategy is suitable for an investor seeking a balance between capital preservation and current income.*

Curran Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Curran Investment Management has been independently verified for the periods July 1, 1998 through December 31, 2020. The verification reports are available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Curran Investment Management is an independent investment adviser, registered with the Securities and Exchange Commission. For the period June 1, 1998 through August 4, 2000, the firm was organized as a registered investment adviser representative of First Albany Corporation. Beginning August 7, 2000, the firm became an affiliate of First Union Securities, which later merged with Wachovia Securities in 2002. As such, the firm was organized as a registered investment adviser representative of Wachovia Securities until December 13, 2004. No material change in personnel responsible for the investment management process occurred. The GIPS rules of portability have been satisfied. The firm maintains a list of composite descriptions which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Gross returns have been reduced by transaction costs and net returns have been reduced by all actual fees incurred. Most accounts pay a bundled fee which includes investment management and client services fees, execution and clearing fees, annual account maintenance costs and IRA annual fees. The annual composite dispersion presented is an asset-weighted standard deviation of gross returns calculated for the accounts in the composite the entire year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing portfolios, calculating performance and preparing GIPS reports are available upon request.

The composite contains both bundled fee and non-bundled accounts. The bundled fee will be charged as a percentage of assets under management, starting at 2.25% on the first \$500,000 0.75% on the next \$4.5 million and 0.50% on any amount over \$5 million. Some investors opt for a non-bundled fee. They pay 2.0% on the first \$250,000 1% on the next \$750,000 and 0.75% on any amount over \$1 million. Actual investment advisory fees incurred by clients may vary.

The Portfolio for Income Composite was created June 30, 2020 and has an inception date of January 1, 2020.
