

NORTHLANDING

Financial Partners, LLC

Valued Clients & Friends,

The health and well-being of you and our staff continues to be of the utmost importance to us. With this in mind and based on recent guidance from the Monroe County Health Department, NYS Department of Health and the CDC, we have decided to have all staff work fully remote beginning tomorrow, Thursday, 3/19/2020.

As mentioned in previous communications, our excellent technology suite allows us to continue business as usual in the face of these unprecedented circumstances. Our partnership with Fidelity, use of the NLFP Secure Client Portal, Cisco Webex and many other pieces of software will allow us to work seamlessly as a team. We would highly recommend that you consider taking advantage of one of our many virtual meeting options.

In the event you do need to visit the office, we would ask that you first contact your advisor or their associated Client Service Associate to schedule a time.

We will continue to closely monitor the situation and to provide you with timely updates. If you have any questions or concerns, please let me know.

Please stay safe and healthy.
