The CAP® is offered by The American College and provides the knowledge and tools needed by professionals in the nonprofit and financial services fields to help clients reach their charitable objectives while also helping them meet their estate planning and wealth management goals. Candidates for the CAP® designation must complete a minimum of three course in philanthropic studies at the Irwin Graduate School and six hours of rigorous, supervised written examinations. The curriculum addresses the advanced design, implementation and management of charitable gift techniques and strategies, as well as philanthropic tools including charitable trusts, private foundations, supporting organizations, donor-advised funds, pooled income funds and charitable gift annuities.

The RICP® is offered by The American College and is designed for advanced financial professionals who either have one of the other top financial services credentials or who specifically focus their practices on retirement income planning. To receive the RICP® designation, one must have 3 years of full-time professional business experience, successfully complete all courses in the selected program, meet ethics

standards, and agree to comply with The American College Code of Ethics and Procedures. The designation also requires 15 hours of continuing education every 2 years.

The CFP® certification is obtained by completing an advanced college-level course of study addressing the financial planning subject areas that the CFP® Board's studies have determined as necessary for the competent and professional delivery of financial planning services, a comprehensive certification exam and agreeing to be bound by the CFP® board's *Standard of Professional Conduct*. As a prerequisite, the individual must have a Bachelor's degree from a regionally accredited United States college or university (or foreign university equivalent) and have at least 3 years of full time financial planning experience (or equivalent measured at 2,000 hours per year). This designation requires 30 hours of continuing education every 2 years and renewing an agreement to be bound by the *Standards of Professional Conduct*.

The REBC® is a designation issued by The American College and is obtained by completing five college-level courses and passing a two-hour proctored exam for each course. The authority to use the ChFC® mark is granted by the Certification Committee of the Board of Trustees of The American College, and that privilege is contingent on adherence to strict ethical guidelines. All ChFC® advisors are required to do the same for clients that they would do for themselves in similar circumstances, the standard of ethical behavior most beneficial for their clients. Each ChFC® has taken 9 or more college-level courses on all aspects of financial planning. The average study time for the program is over 400 hours, and advisors frequently spend years earning this coveted distinction. Each ChFC® must also complete a minimum of 30 hours of continuing education every two years and must meet extensive experience requirements to ensure that you get the professional financial advice you need.

The CLU® is offered by The American College. The CLU® designation is obtained by completing 8 core, 3 elective courses and a final exam for each course.
