# Portfolio Dashboard

## A “snapshot” view with data tiles highlighting different aspects of your portfolio

- We will look more closely at each file in the following pages.
- Each file provides a snapshot of information. For additional detail on any of the files, click the file title.

Toggle between portfolios by clicking the portfolio name in the top left-hand corner.

You may also filter specific accounts within the portfolio by using the filter icon.

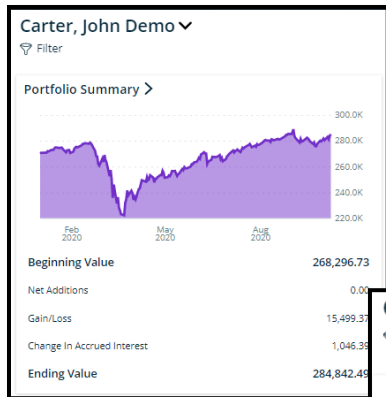

Toggle the time frame or information “as of date” (default is year-to-date)

Generate reports

Note: some data tiles may display 'No Data Available', which means the data feed is not applicable to your portfolio.

# Portfolio Summary

Provides an overview of activity in the portfolio

Toggle the time frame or information "as of date" (default is year-to-date)

Chart shows the market value of the account during the selected time frame

Shows all contributions, withdrawals, realized gains (or losses), income, and advisory fees for a given period

# Performance

## Displays the “time-weighted return” of your portfolio

- Performance returns shown display “time-weighted return”
- All account returns and portfolio returns are shown net of advisory fees
- Advisory fees are included in the gain/loss calculation at the account level and portfolio level

The screenshot shows a performance dashboard for 'Carter, John Demo'. At the top, a line chart displays a 6.2% return. Below this is a table with columns for Name, Units, 10/09/2020 EMV, Allocation, and Return. The table lists three items: Carter, John Demo (100% allocation, 6.2% return), Carter, John - IND (21% allocation, 6.2% return), and Carter, John - IRA (79% allocation, 6.2% return). To the right of the table is an 'Export' button. Below the table is another line chart showing the performance over time from February 2020 to August 2020. Callout boxes provide additional information: 'Toggle between Account/Asset Class/Asset to view & expand performance at different levels' points to the 'Group By' dropdown; 'Click details or analytics to see additional data points like standard deviation & correlation' points to the 'Details' and 'Analytics' tabs; 'Toggle the time frame or information “as of date” (default is year-to-date)' points to the 'Year To Date as of 10/09/2020' text; 'Toggle to show return, total market value or risk-return profile of different levels of your portfolio' points to the 'Return', 'Market Value', and 'Risk vs Return' tabs; and 'Export feature will format the data into an excel file' points to the 'Export' button.

Name	Units	10/09/2020 EMV	Allocation	Return
▼ Carter, John Demo	--	286,116.32	100%	6.2%
> Carter, John - IND	--	58,833.17	21%	6.2%
> Carter, John - IRA	--	227,283.15	79%	6.2%

# Projected Income

**Provides a breakout of the expected income to be produced in your portfolio**

Toggle projected time frame between "next 12 months" or "remainder of the year"

Chart provides a breakout of income on a monthly basis

Toggle the time frame or information "as of date" (default is year-to-date)

Provides a breakout of income streams by dividend income and interest income

Provides a breakout taxable and tax-exempt income

Table provides a breakout of income on a monthly basis.

Projected income can be viewed at the account level, asset class level and expanded to the asset level.

# Fixed Income

## Provides various data points on individual bonds held within your portfolio

- Please note that if your portfolio does not hold any individual bonds the file will display 'No Data Available'

**Fixed Income >**  
View: Summary
