Our Commitment is to You

At Prestige Accounting Services Group, our commitment is to become your trusted advisor by providing you with the highest quality customer service, proactive planning, and customized strategies for your unique tax situation.

Prestige Accounting Services Group is an accounting firm established in 2008 that is committed to integrity, knowledge, and proactive service. This proactive service delivers strategic tax and accounting solutions using a consultative team-based approach for closely-held businesses and their owners, corporate executives, and high net worth individuals and families located in the New Jersey area.

We seek to develop long-lasting relationships and become your trusted advisor for your tax and accounting needs. We take a “hands on” proactive approach.

Prestige Accounting Services Group works in partnership with its affiliate, Prestige Wealth Management Group, which provides wealth management, financial planning, and estate planning services. Unlike other standalone accounting firms, we have direct resources to be able to provide you with answers to a wide array of tax and financial questions and needs.

Constantly changing tax laws are hard to keep up with. Compound that with your responsibilities at work and home and there could be multiple tax deductions and credits that you are missing out on. We have a dedicated staff of qualified professionals ready to help you take advantage of the tax laws for your unique situation.

- Have you organized your business to maximize your tax savings?

What sets us apart from our competition is our proactive service. Many accounting firms are reactive – they prepare your tax returns and wait for you to bring issues to them. The problem with this approach is that it requires you to know when to ask a question. With constant changes in your business and personal life along with changes in tax law, you may miss opportunities that proper proactive tax planning takes advantage of.

Our approach is different. We build a partnership with you. We take the time to understand your needs. We communicate with you throughout the year leaving you well informed to all the current tax planning opportunities.

As your trusted advisor, we take the time to understand your needs, then utilize our experience to craft solutions tailored specifically for you and your business.
