

WISDOM SESSION

See the Promise

“The greatest pull of your life should be the pull of the future.”

Study your present situation thoroughly. Go over in your imagination the various courses of action possible to you.

Visualize the consequences which can follow from this course. Pick out the course which gives you the most promise and go ahead.

Most successful people use this skill of mental visualization. They mentally run through important events before they happen.

Picture yourself in your mind's eye as already having achieved your goal. See yourself doing the things you'll be doing when you've reached your goal.

You can put your subconscious to work toward making your mental pictures come true. Go over your day in your imagination before you begin it.

You can begin acting successfully at any moment. See the things you want as already yours.

Think of them as yours, as already in your possession.
