

Hutton House Special Olympics

February 24, 2012

Just Sweat Fitness Studio in partnership with Hutton House provides year-round sports training for individuals with intellectual disabilities. Special Olympics provides opportunities for the participants to enhance physical fitness, demonstrate courage, experience joy, and develop skills and friendships with their families, other Special Olympics athletes, and the community. We are very excited to be a part of encouraging the development of these athletes.

Here are some just a few of our participants :

Lynn Madsen has been involved in the Special Olympics for 26 years. She has competed in several Provincial Games in swimming and on a national level, for five pin bowling, taking Gold and Silver. Her latest competition was at the National Games in London, Ontario in 2010, winning Gold, Silver and Bronze for swimming. She was over-joyed to be chosen to light the Olympic Torch at the London Games. Lynn has been employed at a local restaurant for 2 years and enjoys volunteering weekly with the Girl Guides-Sparks division.

Ben is a skier in the Special Olympics class. He is very proud of his metals and really enjoys competing in the Special Olympics.
