Item 4 – Advisory Services

A. Firm Information

PathWise (the “Advisor”) is a registered investment advisor located in the State of California and become federally registered with the SEC as of June 14, 2021. PathWise was founded in December 2014 and is owned and operated by Chief Executive Officer and Chief Compliance Officer Ryan P. Wells and Chief Investment Officer Arek Puzia, CPA. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by PathWise.

B. Advisory Services Offered

PathWise offers investment advisory services to individuals, high net worth individuals, pension plans in California and other states (each referred to as a “Client”).

Investment Management Services

PathWise provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and planning services. PathWise works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio allocation. PathWise will then construct a portfolio, consisting of diversified mutual funds and/or exchange-traded funds (“ETFs”) to achieve the Client’s investment goals. Where appropriate the Advisor will also utilize individual stocks, bonds, and limited partnerships to meet the needs of its Clients.

PathWise’s investment strategy is primarily long-term focused, but where appropriate the Advisor will buy, sell, or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. PathWise will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

PathWise evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. On occasion and in meeting with the objectives, PathWise will recommend, redistributing investment allocations to diversify the portfolio. PathWise will recommend specific positions to increase sector or asset class weightings if appropriate for the portfolio. The Advisor shall recommend employing cash positions as a possible hedge against market movement. PathWise can recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

Prior to rendering investment advisory services, PathWise will ascertain, in conjunction with the Client, the Client’s financial situation, risk tolerance, and investment objective[s].

PathWise will provide investment advisory services and portfolio management services and will not provide securities custodial or other administrative services. At no time will PathWise accept or maintain custody of a Client’s funds or securities, except for the authorized deduction of the Advisor’s fees.

All Client assets will be managed within their designated brokerage account[s] or pension account[s], pursuant to the Client investment advisory agreement.

Third Party Money Managers

Pathwise may directly invest the assets deposited to your account(s) and/or strategically allocate them to separately managed accounts (each such account an "SMA") to be managed by independent third-party money managers or sub-advisors (each a "TPMM") in line with the asset allocation ranges we have determined for your portfolio. The asset allocation ranges for your portfolio may be modified over time, as your financial circumstances, needs, and investment objectives change. Pathwise will communicate these changes to your TPMMs as necessary and modify your portfolio allocations accordingly. The TPMMs Pathwise recommends may contract with Pathwise directly to provide sub-advisory services to your account, may be accessible to Pathwise via the investment platform of your Custodian, or may contract with you independently. In some instances, you may be required to execute a separate written investment advisory agreement and/or discretionary trading authorization in favor of the recommended TPMM(s). You will be provided with the Form ADV Part 2A (or equivalent disclosures) for any recommended TPMMs in advance of their providing services to your account.

Pathwise will act as a co-advisor to each of your SMAs, periodically monitoring their performance, evaluating their initial and continuing suitability, and communicating changes in your investment profile to the TPMM, as necessary and appropriate. The TPMM shall be responsible for all trading and investment selection functions under this arrangement. Pathwise, or a third-party engaged by Pathwise, will conduct initial and ongoing due diligence on each recommended TPMM, negotiate fees to be paid by clients and other terms of the engagement, and will provide you with consolidated performance reporting of all of your SMAs.

Private Placement Investments

When suitable for clients, typically accredited investors, qualified clients, and/or qualified purchasers (as those terms are defined by the Securities and Exchange Commission) with limited liquidity needs only, we may recommend and assist clients in making investments in private funds. Any private investments will be conducted exclusively via private funds offered and overseen by a reputable manager with recognizable institutional expertise in the targeted investment area.

These funds are chosen when we believe they may offer some combination of:

- exposure to assets or investment strategies that may be uncorrelated, or less correlated, to the broad publicly traded equity and debt markets
- attractive sources of return from the assets or trading strategy that may be otherwise inaccessible or heavily constrained when offered in public investment vehicles

To evaluate the relative attractiveness between private investments and publicly-traded alternatives after considering the added risk factors and implementation issues inherent in private investments, we will typically complete some or all of the following analysis before making any initial investment recommendation, and during the ongoing period that we hold exposure to that investment:

- Initial and ongoing due diligence of the manager and the investment offering that may include:
 - Review of fund subscription materials, audited financials, historical tax reporting samples,

historical investment commentary and other reporting furnished by fund manager or sponsor

- In-person or remote attendance at fund manager or sponsor update calls, webinars, or meetings
 - Fund performance reviews: monthly, quarterly, semi-annual, or annual
 - Discussion with other investors and review of third-party due diligence sources for the manager and the fund
- Coordinating tax document delivery and ongoing tax planning related to the fund with client CPAs to monitor any unique income character and ancillary filing requirements resulting from the private structure itself or the underlying investment activity
 - Evaluation and integration of applicable fund liquidity opportunities within the context of, but not limited to, client goals, objectives, tax situation, need for liquidity, and estate planning
 - Facilitate, on a non-discretionary basis, management and handling of all intervening private fund cash flows – including but not limited to - initial commitments, ongoing capital calls, income/capital distributions, voluntary/involuntary redemption activity, sequential commitment structuring, target illiquidity maintenance at the portfolio level
 - Awareness and integration of any unique return/risk attributes for each individual fund and the private fund commitment as a whole with the consolidated portfolio construction and expected interaction between other client investments

Ongoing performance/valuation reporting maintenance for all individual private investments and the private fund commitment as a whole – fully integrated into the client’s consolidated performance/risk reporting which covers all public and private investments across the portfolio.

Retirement Plan Advisory Services

PathWise offers retirement plan advisory services to pensions and other employee benefit plans, including but not limited to 401k plans, based on the demographics, goals, objectives, time horizon, and/or risk tolerance of the plan’s participants.

Financial Planning Services

PathWise will typically provide a variety of financial planning services to individuals and families, pursuant to a written financial planning agreement. Services are offered in several areas of a Client’s financial situation, depending on their goals, objectives, and financial situation.

Generally, such financial planning services will involve preparing a financial plan or render a financial consultation based on the Client’s financial goals and objectives. This planning can encompass one or more areas of need, including, but not limited to investment planning, retirement planning, personal savings, education savings and other areas of a Client’s financial situation.

A financial plan developed for the Client will usually include general recommendations for a course of action or specific actions to be taken by the Client. For example, recommendations could be made that the Client start or revise their investment programs, commence, or alter retirement savings, establish education savings and/or charitable giving programs. PathWise could also refer Clients to an accountant, attorney, or another specialist, as appropriate for their unique situation. For certain financial planning engagements, the Advisor will provide a written summary of Client’s financial situation, observations, and recommendations. The Advisor typically

offers its Clients an ongoing financial planning engagement on a quarterly fee basis. Please see Item 5 for more details.

Financial planning recommendations can pose a potential conflict between the interests of the Advisor and the interests of the Client. For example, a recommendation to engage the Advisor for investment management services or to increase the level of investment assets with the Advisor would pose a conflict, as it would increase the advisory fees paid to the Advisor. Furthermore, it could be in our best interest not to recommend paying down debt that would directly reduce the Assets Under Management that we manage and charge a percentage fee for. We mitigate this conflict by providing an overall plan suitable and in the best interest of the client.

Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to affect the transaction through the Advisor.

Whenever we provide Financial Planning Services we shall:

1. Document the scope of work in an agreement.
2. Prepare a questionnaire to understand the client's needs.
3. Conduct a reasonable level of due diligence when referring other professionals to the financial planning client.
4. Disclose any and all compensation methods we shall receive.
5. Conduct reasonable due diligence when recommending or using technologies when providing professional CFP® services to a client.
6. Periodically monitor the CFP Board's Code of Ethics and Standard of Conduct whenever FIRM makes a recommendation for the Financial Planning client to utilize the services of a third party as mentioned above, FIRM shall:
 - Have a reasonable basis for the recommendation or Engagement based on the person's reputation, experience, and qualifications.
 - Disclose to the Client, at the time of the recommendation or prior to the Engagement, any arrangement by which someone who is not the Client will compensate or provide some other material economic benefit to the CFP® professional, the CFP® Professional's Firm, or a Related Party for the recommendation or Engagement; and
 - When engaging a person to provide services for a Client, exercise reasonable care to protect the Client's interests.
7. When selecting or using and recommending technology FIRM shall document the due-diligence process which will include:
 - Exercising reasonable care and judgment when selecting, using, or recommending any software, digital advice tool, or other technology while providing Professional Services to a Client.
 - Having reasonable level of understanding of the assumptions and outcomes of the technology employed.
 - Having reasonable basis for believing that the technology produces reliable, objective, and appropriate outcomes.

The CFP® professionals of FIRM will also review the complete CFP Board Code of Ethics and Standards of Conduct and the Practice Standards to ensure proper implementation within the firm.

C. Client Account Management

Prior to engaging PathWise to provide investment advisory services, each Client is required to enter into an investment advisory agreement with the Advisor that defines the terms, conditions, authority, and responsibilities of the Advisor and the Client. These services generally include:

- Establishing an Investment Policy Statement – PathWise, in connection with the Client, will assist in developing investment goals and objectives and the strategies to achieve those goals.
- Asset Allocation – PathWise will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation, and tolerance for risk for each Client.
- Portfolio Construction – PathWise will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – PathWise will provide investment management and ongoing oversight of the Client's portfolio and overall account.

D. Wrap Fee Programs

PathWise does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by PathWise.

E. Assets Under Management

As of December 31, 2023, PathWise manages the following assets:

| Assets Under Management | Assets |
|--------------------------|-----------------------|
| Discretionary Assets | \$ 155,452,906 |
| Non-Discretionary Assets | \$ 7,078,290 |
| Total | \$ 162,531,196 |

F. Assets Under Advisement

As of December 31, 2023, PathWise advises the following assets:

| Assets Under Advisement | Assets |
|-------------------------|---------------|
| Non-Discretionary | \$ 78,241,002 |

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client shall sign an investment advisory agreement that details the responsibilities of PathWise and the Client.

A. Fees for Advisory Services

The specific manner in which fees are charged is established in a client's written agreement. However, the general fee structures are outlined below. PathWise established the fee schedule below in 2021, some legacy clients may be paying a fee structure ranging from 1.25% to .75%.

Investment Management Services

Investment advisory fees will be paid quarterly in arrears pursuant to the terms of the investment advisory agreement. Investment advisory fees are based on the market value including accrued interest of assets under management at the end of each calendar quarter, and if the Client is engaged in additional advisory services. Investment advisory fees are based on the following schedule:

| Assets Under Management | Annual Rate |
|----------------------------|-------------|
| \$0 to \$2,000,000 | 1.00% |
| \$2,000,001 - \$5,000,000 | 0.75% |
| \$5,000,001 - \$10,000,000 | 0.50% |
| \$10,000,001 and over | 0.25% |

Fees are negotiable at the discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by PathWise will be independently valued by the designated custodian. PathWise will not have the authority or responsibility to value portfolio securities.

Similar services are available for a lower fee from other service providers.

Sub-Advisory Fees

The specific Sub-Advisory Fees charged by each TPMM will be set forth in their Form ADV Part 2A (or disclosure brochure containing the equivalent information) and/or other account opening documents.

Sub-Advisor Fees are typically assessed on a quarterly basis. Fees are paid in arrears and calculated based on the end of quarter value of the managed account. TPMM's will typically directly deduct their Sub-Advisory Fees from the client's account held at the Custodian. In some instances, Pathwise may collect the Sub-Advisory Fees on behalf of the TPMM and remit payment accordingly. Sub-Advisory Fees are separate and distinct from Pathwise's advisory fees. While Pathwise's fees are separate and distinct from TPMM fees, the client will never pay over 2% for the combined services.

Retirement Plan Advisory Services

Retirement plan advisory fees are paid quarterly in arrears pursuant to the terms of the investment advisory contract. Retirement plan advisory fees are based on the market value of assets under management not including accrued interest at the end of the quarter. Retirement plan advisory fee is at an annual rate of 0.50%.

Financial Planning Services

PathWise offers financial planning services on a fixed annual fee basis ranging from \$3,000 to \$5,000, depending on the nature and complexity of each Client's circumstances, the frequency of Client interactions,

and other factors. Financial planning fees are negotiable at the sole discretion of the Advisor. The Advisor will provide the Client with an estimate of total costs prior to engaging the Advisor.

The Advisor's fee is exclusive of, and in addition to, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

B. Fee Billing

Investment Management and Retirement Plan Advisory Services

Investment advisory fees will either be automatically deducted from the Client account[s] by the custodian or paid directly by the Client upon receipt of an invoice for services. For Clients agreeing to have their advisory fees directly deducted, the Advisor shall send an invoice to the custodian indicating the amount of the fees to be deducted from the Client account[s] at the respective quarter end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with PathWise at the end of each quarter. Clients will be provided with a statement, at least quarterly, from the custodian reflecting the deduction of the investment advisory fee. In addition, the Advisor will provide the Client a report itemizing the fee, including the calculation period covered by the fee, the account value and the methodology used to calculate the fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting PathWise to be paid directly from their accounts held by the custodian as part of the investment advisory agreement and separate account forms provided by the custodian.

Financial Planning

Financial planning are invoiced quarterly in arrears and are due upon receipt of invoice.

C. Other Fees and Expenses

Clients will generally incur certain fees or charges imposed by third parties, other than PathWise, in connection with investments made on behalf of the Client's account[s]. The Client is responsible for all custodial and securities execution fees charged by the custodian and executing broker-dealer. The investment advisory fee charged by PathWise is separate and distinct from these custodian and execution fees.

In addition, all fees paid to PathWise for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage, and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of PathWise, but would not receive the services provided by PathWise which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by PathWise to fully understand the total fees to be paid.

PathWise is not paid any portion of these third-party fees.

D. Fees and Termination

Proration of Fees

Investment Management Services

PathWise is compensated for its services in arrears of the quarter in which investment advisory services are rendered. Either party can terminate the investment advisory agreement with PathWise, at any time, by providing advance written notice to the other party. The Client shall be responsible for investment advisory fees up to and including the effective date of termination. Upon termination, the Advisor will refund any unearned, prepaid investment advisory fees from the effective date of termination to the end of the quarter if the client has paid in advance. If services are paid in arrears, the fee will be prorated to the date of termination. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's written approval.

Retirement Plan Advisory Services

The Advisor can terminate the agreement upon providing thirty (30) days prior written notice to the Client, and the Client can terminate upon providing seven (7) days prior written notice to the Advisor. Termination of the agreement will not result in any penalty, accrued rights, or existing commitments.

Financial Planning

PathWise offers financial planning as a perpetual engagement. Financial planning agreements intended as perpetual will be ongoing in nature and continue until terminated by either party. Either party can terminate a planning agreement at any time by providing written notice to the other party. In addition, the Client can terminate the agreement within five (5) business days of signing the Advisor's financial agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Advisor will refund any unearned, prepaid fees if applicable for services paid in advance. If services are paid in arrears, the fee will be prorated to the date of termination. The Client shall be responsible for all unpaid fees up to and including the effective date of termination. A prorated invoice shall be provided, and the prorated amount will be immediately deducted from the client's account or be billed and shall be paid immediately upon receipt.

At the discretion of PathWise from time to time all earned fees may be waived and all upon termination. All the fee schedules and fee calculations are outlined in the client's agreement and may differ from the fees discussed here.

E. Compensation for Sales of Securities

PathWise does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

Item 6 – Performance-Based Fees and Side-By-Side Management

PathWise does not charge performance-based fees for its investment advisory services. The fees charged by PathWise are as described in "Item 5 – Fees and Compensation" above and are not based upon the capital appreciation of the funds or securities held by any Client.

PathWise does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

PathWise provides investment advisory services to individuals, high net worth individuals, and pension plans. PathWise does not impose any account minimum, but we do recommend investable assets of at least \$750,000.

Employee benefit plans which select PathWise to provide investment advisory services should be aware that the Employee Retirement Income Security Act of 1974 (“ERISA”) sets forth rules under which Plan Fiduciaries could retain investment advisers for various types of services with respect to Plan assets. For certain services, PathWise will be considered a fiduciary under ERISA. For example, PathWise will act as a fiduciary when providing non-discretionary investment advice to the Plan Fiduciaries by recommending a suite of investments as choices among which Plan Participants could select. Also, to the extent that the Plan Fiduciaries retain PathWise to act as an investment manager within the meaning of ERISA § 3(38), PathWise will provide discretionary investment management services to the Plan.

Item 8 – Methods of Analysis, Investment Strategies, and Risk of Loss

A. Methods of Analysis

PathWise primarily employs fundamental analysis methods in developing investment strategies for its Clients. Research and analysis from PathWise are derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

PathWise could also employ technical analysis, which is the attempt to predict future prices based on the analysis and trends of historical market data.

PathWise could also base its investments around the modern portfolio theory as a formal investment selection process. This theory attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various assets.

As noted above, PathWise generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. PathWise will typically hold all or a portion of a security for more than a year but could hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, PathWise could also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector, or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities could fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. PathWise will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that could indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment

PathWise

criteria utilized in the fundamental analysis could lose value and could have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in "Item 13 – Review of Accounts".

Technical analysis seeks to predict future prices or direction of an investments value based on market trends. A risk of technical analysis methods is that the market does not always follow patterns and relying solely on this method could not work longer term. As such, the Advisor does not solely rely on this method.

Modern portfolio theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk.

The exact trade-off will be the same of all investors, but different investors will evaluate the trade-off differently based on the individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better than expected returns.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account.

Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that could affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Alternative Investments (Limited Partnerships)

The performance of alternative investments (limited partnerships) can be volatile and could have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that could carry higher risks. The client should only have a portion of their assets in these investments.

Private Placements

For the private placement securities portion of a client's portfolio, we employ a number of different means and accesses multiple outside resources to provide for an appropriate level of due diligence in identifying various private placement and direct participation investment offerings that may be recommended to our clients. This may include sponsor financial reviews, attendance at sponsor provided due diligence meetings, attendance at industry sponsored due diligence conferences, access and review of third-party due diligence and review summaries, the hiring of our own due diligence counsel and review, consulting with other industry professionals as well as industry specialists. The due diligence process is ongoing and continual and may include

the gathering of available information, such as; marketing materials, audited financial reports sponsor and investment entity operating statements, profit and loss statements, balance sheets, offering memorandums, subscription agreements, annual reports, industry outlook reports, economic studies, and others.

Generally, investments are more liquid if the investment has an established market of purchasers and sellers, such as a stock or bond listed on a national securities exchange. Conversely, investments that do not have an established market of purchasers and sellers may be considered illiquid. Your investment in illiquid investments may be for an indefinite time, because of the lack of purchasers willing to convert your investment to cash or other assets.

Cybersecurity:

The technology systems of the firm and the respective service providers could be vulnerable to inadvertent or deliberate interruption and consequent damage from technical or human sources. In addition to natural catastrophes, service/power outages, and network or telecommunication failures, security breaches and intrusion by unauthorized persons could result in damage, disruption, and theft of data, including investor information. PathWise has implemented cybersecurity procedures meant to address these risks. Nevertheless, given the fundamental dependence on technology, a cyber-attack or similar technology disruption could have a material adverse impact on Clients and investments. Additionally, there are inherent limitations in cybersecurity policies and procedures and controls including the possibility that certain risks have not been identified. PathWise has limited due diligence and risk assessments of third-party providers. However, PathWise is not able to control the cybersecurity plans, breach notifications, incident response plans and controls put in place by other services providers and/or the issuers in which the client invest. It is in the client's best interest to monitor all of their accounts on a regular basis and stay informed to cybersecurity best practices.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory, or disciplinary events involving PathWise or any of its employees. PathWise and its advisory personnel value the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider with whom you partner. Our backgrounds are on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching by the firm name or the firm CRD# **174215**. This will provide access to Form ADV Parts 1 and 2. Item 11 of the Form ADV Part 1 lists legal and disciplinary disclosure questions.

Item 10 – Other Financial Industry Activities and Affiliations

Mr. Puzia is a Professor at Diablo Valley College, California. Mr. Puzia spends approximately 25 hours a month and less than 1 hour a day during trading hours as a Professor. Mr. Puzia teaches Financial Accounting and Managerial Accounting.

Pathwise and its management persons are not registered and does not have an application pending to register as a broker dealer, futures commission merchant, or commodity pool operator.

Selection of Other Advisors

We will refer you to third party advisors. However, while we will charge you for management of your assets referred to these third-party advisors, we will not be paid by such third-party advisors for these referrals.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

PathWise has implemented a Code of Ethics that defines our fiduciary commitment to each Client. This Code of Ethics applies to all Supervised Persons associated with PathWise. The Code of Ethics was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. PathWise and its personnel owe a duty of loyalty, fairness, and good faith towards each Client. It is the obligation of PathWise associates to adhere not only to the specific provisions of the Code but also to the general principles that guide the Code. The Code of Ethics covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code of Ethics, please contact us at (925) 939-5607

B. Personal Trading with Material Interest

PathWise allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. PathWise does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund or advise an investment company. PathWise does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

PathWise allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities, we recommend (purchase or sell) to you presents a potential conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted a Code of Ethics, which addresses insider trading (material non-public information controls) and personal securities reporting procedures. When trading for personal accounts, Supervised Persons with access to Client account information (our “Access Persons”) of PathWise may have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by PathWise requiring reporting of personal securities trades by its Access Persons. We have also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While PathWise allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterward. **At no time will PathWise, or any Supervised Persons of PathWise, transact in any security to the detriment of any Client.**

Representatives of Pathwise may also invest in the private placements as clients, which creates a conflict of interest as such representatives stand to benefit from any client's investment in the same fund. Clients should understand that representatives of Pathwise are fiduciaries and will only recommend investments to clients that it believes are in the client's best interest.

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

PathWise does not have discretionary authority to select the broker-dealer/custodian for custodial and execution services or the administrator for defined contribution accounts. PathWise will recommend the broker-dealer or custodian (herein the "custodian") to safeguard Client assets and Client will authorize PathWise to direct trades to this custodian as agreed in the investment advisory agreement. Further, PathWise does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

PathWise will recommend a custodian based on criteria such as, but not limited to, the reasonableness of commissions charged to the Client, services made available to the Client, and location of the custodian's offices. PathWise does not receive research services, other products, or compensation as a result of recommending a particular broker that results in the Client paying higher commissions than those obtainable through other brokers.

We typically recommend Charles Schwab & Co., Inc. ("Schwab"), a registered broker-dealer, member SIPC, as the qualified custodian.

PathWise is independently owned and operated and is not affiliated with Schwab. Schwab will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we recommend that you use Schwab as a custodian, you will decide whether to do so and will open your account with Schwab by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so.

Products and services available to the Firm from Schwab

Schwab Advisor Services™ is Schwab's business serving independent investment advisory firms like us. Schwab provides PathWise and our clients with access to institutional brokerage – trading, custody, reporting and related services – many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts while others help us manage and grow our business. Schwab's support services described below are generally available on an unsolicited basis (i.e., we do not have to request them) and at no charge to us. Here is a more detailed description of Schwab's support services:

Services that Benefit Clients Directly

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit each client.

Services that May Not Directly Benefit Clients

Schwab also makes available to us other products and services that benefit us but may not directly benefit a specific client. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We use this research to service all or a substantial number of our clients' accounts. In addition to investment research, Schwab also makes available software and other technology that:

- Provides access to client account data (such as trade confirmations and account statements);
- Facilitates trade execution and allocate aggregated trade orders for multiple client accounts;
- Provides pricing and other market data;
- Facilitates payment of our fees from our clients' accounts; and
- Assists with back-office functions, recordkeeping and client reporting.

Services that Generally Benefit Only Us

Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include (among others) the following:

- Educational conferences and events
- Technology, compliance, legal, and business consulting
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants and insurance providers

Schwab will provide some of these services itself or will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third-party's fees. Schwab may also provide us with other benefits, such as occasional business entertainment of our personnel.

Our Interest in Schwab's Services

The availability of the services described above from Schwab benefits us because we do not have to produce or purchase them. They are not contingent upon PathWise committing any specific amount of business to Schwab in trading commissions or assets in custody. The fact that we receive these benefits from Schwab is an incentive for us to recommend the use of Schwab rather than making such a decision based exclusively on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a conflict of interest. We believe, however, that taken in the aggregate our recommendation of Schwab as a custodian and broker is in the best interest of our clients. Our selection is primarily supported by the scope, quality and price of Schwab's services, and not Schwab's services that benefit only us.

Following are additional details regarding the brokerage practices of the Advisor:

1. *Soft Dollars* - Soft dollars are revenue programs offered by broker-dealers whereby an advisor enters into an agreement to place security trades with the broker in exchange for research and other services. **PathWise does not participate in soft dollar programs sponsored or offered by any broker-dealer.**

2. *Brokerage Referrals* - PathWise does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.

Phone: (925) 939-5607 | Fax: (925) 464-1214
www.pathwise.co

3. Directed Brokerage – PathWise will not accept directed brokerage arrangements and will require any Clients of PathWise to utilize the recommended custodian – Schwab.

PathWise recommends that the clients direct us to use Schwab as the custodian/brokerdealer that PathWise has an established operational process with.

4. Benefits - PathWise receives benefits when the client's assets are custodied and specific Custodians/BrokerDealers. PathWise receives a discount on research provided by a specific mutual fund due to the size of the investment in the fund by clients of PathWise. These benefits would not be provided to PathWise. The benefits include research, access to institutional trading, operations services, and compliance tools, which are typically not available to retail investors.

Additional Custodians - Private Funds and Alternative Investments

While we anticipate that our primary custodian will hold all client cash and publicly traded securities under most circumstances, clients that choose to participate in ownership of private funds and some alternative investments will be required to utilize a separate custodian chosen by the third-party manager investing those funds.

Private funds commonly use several service providers including a Custodian that holds cash and title for all assets acquired by the manager running the fund, and a Fund Administrator that is responsible for a number of services on behalf of both the fund manager and its investors such as: calculation of the net asset value ("NAV") including the calculation of the fund's income and expense accruals and the pricing of securities at current market value; preparation of semi-annual and annual reports to shareholders; calculation and payment to the transfer agent of dividends and distributions (if required); preparation and filing of other SEC filings/reports; calculation of the total returns and other performance measures of the fund.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) the skill required of the broker. PathWise will execute its transactions through an unaffiliated broker-dealer selected by the Client. Where possible PathWise will aggregate orders in a block trade or trades when securities are purchased or sold through the same broker-dealer for multiple (discretionary) accounts. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial reallocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Accounts are monitored on a regular and continuous basis by Mr. Wells and Mr. Puzia. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Clients can request reviews more or less frequently. Accounts are reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or

withdrawals in the Client's account. The Client is encouraged to notify PathWise if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. PathWise will reach out to clients, at least annually to see if their objectives have changed.

Additional reviews could be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the trustee or custodian. These brokerage statements are sent directly from the custodian to the Client. The Client may also establish electronic access to the custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions, and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

At all times the staff of PathWise will take note of any changes in behavior or transactions by any client that might cause suspicion of cognitive function or potential exposure to fraud. As with all clients of the firm, only suitable investments will be recommended and executed. Any statements provided by the custodian should be compared to any reports that may be periodically provided by PathWise. Slight variations in price and value may occur between the two reports based on accounting procedures, reporting dates, or valuation methodologies of certain securities. If clients have a question regarding their statement of if they have not received a statement from their custodian, they should contact us or the custodian directly.

In the event the firm is suspicious of any abuse or strange behavior, the firm will report to the Elder Abuse Hotline or other law enforcement or regulators and may not process a withdrawal or investment request. If the client wishes they may also name a trusted contact that the advisor can contact on the client's behalf in case of diminished capacity or suspected Fraud. Please contact the firm to obtain documentation to add a trusted contact.

Item 14 - Client Referrals and Other Compensation

A. Compensation Received by PathWise

Participation in Institutional Advisor Platform

As described in Item 12 above, PathWise receives support services and products from Schwab at no cost. The availability to us of Schwab's products and services is not based on us giving particular investment advice to our clients.

Accounting and Tax Services/Insurance Services

The Advisor may also recommend Accounting, Tax Services, Insurance, and other services to non-affiliated third parties. The client is under no obligation to engage with the non-affiliated third parties and will generally enter into a written engagement or agreement directly with the third party and be billed directly by the third party. In some cases, the Advisor will pay the fee directly to the third party as part of the services being provided. In those cases, the client will still engage directly with the third-party provider directly. One of the Accounting and Tax Services providers is Marta Puzia the spouse of Arek Puzia. The recommendation by the firm or Arek to utilize the services of Marta Puzia can be considered a conflict of interest. Neither Arek Puzia nor PathWise receives any direct compensation for the referral to Marta Puzia. The client will enter into a direct engagement with Marta Puzia. Generally, Marta Puzia will invoice the clients directly. However, as stated above, some client's invoices may be paid by PathWise based on their arrangement with PathWise. The clients are not obligated to use the services of Marta Puzia or that of any third-party service provider recommended to them.

B. Client Referrals from Solicitors

PathWise does not engage paid solicitors for Client referrals.

Item 15 – Custody

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding client funds and securities. If an investment advisor has the ability to access or control client funds or securities, the investment advisor is deemed to have custody and must ensure proper procedures are implemented. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

We currently do not have any form of custody that requires an annual surprise audit. If we shall ever have such custody we shall disclose in our ADV and engage with an unaffiliated third party CPA firm to conduct the annual surprise audit.

Item 16 – Investment Discretion

PathWise generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by PathWise. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by PathWise will be in accordance with each Client's investment objectives and goals.

We also have the discretion to allocate your assets to be managed by third-party money managers in line with the asset allocation ranges we have determined for your portfolio.

Item 17 – Voting Client Securities

PathWise does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies. However, the Client retains the sole responsibility for proxy decisions and voting. The clients will receive the proxy voting materials directly from the issuer and the determination of whom shall vote the proxies is determined on the custodial documentation and our agreement with the clients.

Item 18 – Financial Information

Neither PathWise nor its management, have any adverse financial situations that would reasonably impair the ability of PathWise to meet all obligations to its Clients. Neither PathWise nor any of its advisory persons, has been subject to a bankruptcy or financial compromise. PathWise is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$1,200 or more for services to be performed six months or more in advance.

Certified Public Accountant (“CPA”)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA’s Code of Professional Conduct within their state accountancy laws or have created their own.

Personal Financial Specialist –PFS

The PFS credential demonstrates an individual has met the minimum education, experience, and testing required of a CPA in addition to a minimum level of expertise in personal financial planning. To attain the PFS credential, a candidate must hold an unrevoked CPA license, fulfill 3,000 hours of personal financial planning business experience, complete 80 hours of personal financial planning CPE credits, pass a comprehensive financial planning exam and be an active member of the AICPA.

A PFS credential holder is required to adhere to AICPA's Code of Professional Conduct and is encouraged to follow AICPA's Statement on Responsibilities in Financial Planning Practice.

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the "CFP® marks") are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board").

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services and attain a bachelor's degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning.

Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances.

Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and

Ethics – Agree to be bound by CFP Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and

Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
