Most of the accounts we manage are rebalanced at least semi-annually in January and July. WE also provide comprehensive financial planning as part of our investment advisory services. Ask your financial professional—</p> <ul style="list-style-type: none"> • Given my financial situation, should I choose an investment advisory service? Why or why not? • How will you choose investments to recommend to me? • What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?
<p>What fees will I pay?</p>	<p>Our fees are asset-based. The more assets there are in a retail investor’s account, the more a retail investor will pay in fees, and the firm may therefore have an incentive to encourage the retail investor to increase the assets in his or her account. Fees are paid quarterly, in advance, based on the market value of the account as of close of the prior quarter.</p> <p>Some of the common advisory service fees and costs include:</p> <p>Investment management fees: fees are based on assets under management. Our fee schedule ranges from .4 basis points to 1%.</p> <p>Custodian fees: range between \$50 and \$250 per service</p> <p>Mutual fund transaction fees: range between \$25 and \$35 per trade</p> <p>Stock and ETF transactions fee: none</p> <p>You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.</p> <p><i>For additional information</i>, please see [cross references to Form ADV, Part 2A brochure (Items 4 and 7 of Part 2A or Items 4.A. and 5 of Part 2A Appendix 1) and other applicable documents. <p>What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?</p>	<p><i>When we act as your investment adviser, we have to act in your best interest (i.e. fiduciary relationship) and not put our interest ahead of yours.
