Most families engage me to generate a plan and provide implementation, and ongoing monitoring of progress toward their goal of tax efficient retirement income and strategic investing throughout retirement and in service to their legacy.

### **5. Will you be the only person working with me?**

During the course of the financial planning engagement, there may be a need to consult with third-party professionals (e.g., tax or insurance specialists) or to make referrals to other professionals to assist with the implementation of the financial plan. Consultations with third-party professionals will not take place without your written agreement, and we will not share your Personal Information with such third-party professionals without your express consent.

Please be advised that I do not receive fees in any form from professionals to whom you may be referred. However, such professionals may levy a fee for their services which will be negotiated with and charged to you directly.

## 6. How will I pay for your services?

- Asset based fee - clients who would like us to construct and implement the plan and provide ongoing monitoring and review pay a tiered fixed percentage of your combined household investments' market value. There are two asset-based fee options: Premier Accounts, Advisor Managed Discretionary Portfolio Management.
- Life insurance commissions - Specific to life insurance products as part of your solution, we are compensated by the companies with whom we place your business. No alternative fee structure is offered by insurance companies.

## 7. How much do you typically charge?

The planner should be able to provide you with an easy-to-understand estimate of their fees.

Asset based – Holistic Wealth Management including Personal Family Wealth Plan with consideration of financial management, tax planning, asset management, retirement planning, risk management, and estate planning will be set as a tiered fixed percentage of your investments' market value. In keeping with our focus on multi-generational wealth management, Household Asset Tiers are determined based on combined family assets held with us.
