

*Seasons change. Life is unpredictable.
Through it all, FSB Premier is here for all your financial needs.*

Business Continuity Plan

FSB Premier Wealth Management, Inc. (*FSB Premier*) maintains important disaster recovery and business continuity plans that may be activated in the event of a significant business disruption. The firm realizes the critical nature of being able to continue material operations if an incident occurs that could affect mission-critical business units and systems. These plans are key components in maintaining emergency procedures and are required by securities industry regulations.

In planning for potential significant business disruptions, FSB Premier has studied a number of outcomes from varying scenarios, including, as examples only, a disruptions to a single building, a city-wide business disruption, and a regional disruption. The firm's plans are intended to permit the continuation of key business operations during most types of disruptions by resuming mission critical operations, usually within the same business day as the disruption. To assist with business continuity, the firm maintains backup technology processing capabilities in alternate, secure locations. In cases of an extreme disruption, where the continuation of business may not be practical or in the best interest of the firm or its clients, Premier has implemented steps necessary to allow clients prompt access to their funds and securities.

However, clients should be aware that because the firm's plans contain details of a confidential and proprietary nature, they cannot be distributed to the public. Clients should also note that Premier's business continuity plan is subject to modification, and may change from time to time as permitted by applicable law.
