Item 4 – Advisory Services

A. Firm Information

Sandbox Financial Partners, LLC (“Sandbox Financial” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The Advisor is organized as a Limited Liability Company (“LLC”) under the laws of the State of Delaware. Sandbox Financial was founded in June 2018, and is owned and operated by Brian Salcetti (Chief Executive Officer and Managing Partner) and Andrew Salcetti (Chief Compliance Officer). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by Sandbox Financial.

For more information regarding this disclosure Brochure, please contact Andrew Salcetti, the Chief Compliance Officer, at (301) 214-4190.

B. Advisory Services Offered

Sandbox Financial provides advisory services to individuals, families, trusts, estates, charitable organizations, businesses and retirement plans (each referred to as a “Client”). Sandbox Financial provides individualized services to each Client, which are determined during initial conversations and updated over the course of the relationship as needed or requested by the Client.

Sandbox Financial serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. Sandbox Financial’s fiduciary commitment is further described in the Advisor’s Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Investment Management Services

Sandbox Financial works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. Sandbox Financial will then construct a portfolio, consisting of primarily of active and passive mutual funds, exchange-traded funds (“ETFs”), individual equity securities, individual fixed income securities and other types of investments, as appropriate to meet the needs of each Client. Sandbox Financial will also use inverse ETFs, options and alternative investments for Client accounts when it is deemed appropriate. Evaluation of legacy investments will include a review of portfolio fit, tax situation and other considerations. The Advisor may retain other types of investments from the Client’s legacy portfolio due to fit with the overall portfolio strategy, tax-related reasons, or other reasons as identified between the Advisor and the Client.

Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor. Sandbox Financial will construct, implement and monitor the portfolio on a discretionary basis with respect to the Client’s investment policy statement. At no time will Sandbox Financial accept or maintain custody of a Client’s funds or securities. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement. Please see Item 12 – Brokerage Practices and Item 15 - Custody.

Retirement Accounts – When the Advisor provides investment advice to Clients regarding ERISA retirement accounts or individual retirement accounts (“IRAs”), the Advisor is a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act (“ERISA”) and/or the Internal Revenue Code (“IRC”), as applicable, which are laws governing retirement accounts. When deemed to be in the Client’s best interest, the Advisor will provide investment advice to a Client regarding a distribution from an ERISA retirement account or to roll over the assets to an IRA, or recommend a similar transaction including rollovers from one ERISA sponsored Plan to another, one IRA to another IRA, or from one type of account to another account (e.g. commission-based account to fee-based account). Such a recommendation creates a conflict of interest if the Advisor will earn a new (or increase its current) advisory fee as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Advisor.

Family Office Light Service - Sandbox may also offer family office bill pay and cashiering services to certain Clients as part of the Advisor's wealth management services, pursuant to a wealth management agreement. Sandbox uses a third party to provide this service, and does not maintain any custody over client accounts.

Sandbox will provide investment advisory services and portfolio management services and will not provide securities custodial services. All Clients must establish a custody and trading relationship with a "qualified custodian". Please see Item 12 – Brokerage Practices.

Use of Independent Managers

Sandbox in certain situations will recommend that a Client utilize one or more unaffiliated investment managers or investment platforms (collectively "Independent Managers") for all or a portion of a Client's investment portfolio. In such instances, the Client may be required to authorize and enter into an advisory agreement with the Independent Manager[s] that defines the terms in which the Independent Manager[s] will provide investment management and related services. The Advisor may also assist in the development of the initial policy recommendations and managing the ongoing Client relationship. The Advisor will perform initial and ongoing oversight and due diligence over the selected Independent Manager[s] to ensure each Independent Manager's strategies and target allocations remain aligned with the Client's investment objectives and overall best interests. The Client, prior to entering into an agreement with unaffiliated investment manager[s] or investment platform[s], will be provided with the Independent Manager's Form ADV 2A (or a brochure that makes the appropriate disclosures).

Financial Planning Services

Financial Planning Services are at the core of the Client relationship with Sandbox Financial. Financial planning is an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans while also understanding personal values, goals and objectives. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the Client. Financial planning services may be included as a part of investment management services or made available as a standalone service.

For standalone engagements, Sandbox Financial will provide financial planning and consulting services to Clients pursuant to a written financial planning agreement. Services are offered in several areas depending on the Client's goals and objectives. Generally, such financial planning services will involve a written report which provides the Client with a detailed financial plan to assist the Client in achieving his or her financial goals and objectives. This planning or consulting may encompass one or more areas of need, including but not limited to, financial position, tax considerations, employee benefits, investment analysis, insurance analysis, retirement analysis, death and disability considerations, and estate planning. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly by the Client.

Financial planning and consulting recommendations pose a conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Implementation of financial planning recommendations is entirely at the Client's discretion. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor. Sandbox Financial will work with Clients to implement recommendations and referrals to other professionals may be made where appropriate to meet the Client's needs.

Retirement Plan Advisory Services

Sandbox Financial provides retirement plan advisory services on behalf of the retirement plans (each a "Plan") and the company (the "Plan Sponsor"). The Advisor's retirement plan advisory services are designed to assist the Plan Sponsor in meeting its fiduciary obligation to the Plan and its Plan Participants. Each engagement is customized to the needs of the Plan and Plan Sponsor. Services include both fiduciary and non-fiduciary services to the Plan Sponsor and the Plan Participants. Advisory services are negotiated based on the needs of the Plan and the direction and engagement by the Plan Sponsor and are included in the terms of a retirement plan advisory agreement.

D. Wrap Fee Programs

Sandbox Financial does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by Sandbox Financial.

E. Assets Under Management

As of December 31, 2025, Sandbox Financial manages \$681,669,971 in Client assets, \$621,898,688 of which are managed on a discretionary basis and \$59,771,283 on a non-discretionary basis. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into one or more written agreements with the Advisor.

A. Fees for Advisory Services

Investment Management Services

Investment advisory fees are paid quarterly in advance of each calendar quarter and at an annual rate ranging from 0.50% to 1.50%, pursuant to the terms of the investment advisory agreement. Fees are based on several factors including the scope and complexity of the services to be provided, the level of assets to be managed and the overall relationship with the Advisor. Investment advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. The investment advisory fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management

with Advisor. All securities held in accounts managed by Sandbox Financial will be independently valued by the Custodian. The Advisor will conduct periodic reviews of the Custodian's valuation to ensure accurate billing.

The Client may make additions or withdrawals from the account[s] at any time, subject to the Advisor's right to terminate an account or the overall relationship. Additions may be in cash or securities provided that the Advisor reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client's account[s]. Clients may withdraw account assets on notice to Sandbox Financial, subject to the usual and customary securities settlement procedures. However, withdrawals from the Client's account[s] may impede the Advisor's ability to implement the investment strategy designed for the Client. Clients are advised that when such securities are liquidated, they may be subject to securities transaction fees, short-term redemption fees, and/or tax ramifications. An adjustment will be made in the next billing period to reflect the fee difference.

The Advisor's fee is exclusive of, and in addition to, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

Family Office Light Service

Sandbox typically offers family office services for an annual fixed fee. The fee for family office services is negotiated based on the nature and complexity of the services to be provided and the overall relationship between the Client and the Advisor. The family office services fee will be outlined in the family office agreement executed by the Client.

Use of Independent Managers

As noted in Item 4, the Advisor in certain situations will implement all or a portion of a Client's investment portfolio utilizing one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. The Advisor will only earn its investment advisory fee as described above. Independent Managers typically do not offer any fee discounts but may have a breakpoint schedule which will reduce the fee with an increased level of assets placed under management with an Independent Manager. The terms of such fee arrangements are included in the Independent Manager's disclosure brochure and applicable contract[s] with the Independent Manager. The total blended fee, including the Advisor's fee and the Independent Manager's fee, will not exceed 2.00% annually.

For Clients referred by the Advisor to an Independent Manager, the Client's fee may be separately billed or deducted from the Client's account[s] by the Independent Manager. The Client, prior to entering into an agreement with an Independent Manager will be provided with the Independent Manager's Form ADV 2A (or a brochure that makes the appropriate disclosures) disclosing their fee.

Financial Planning Services

Sandbox Financial may include financial planning services as part of the overall investment advisory fee or its may be offered separately. Project-based engagements may be offered at an hourly rate ranging from \$150 to \$300 per hour based on the experience of the Advisory Person rendering services and/or the complexity of the services provided. Fixed fee projects are based on the expected duration to complete the engagement deliverable[s] at the Advisor's hourly rate. Fees may be negotiable based on the nature and complexity of the services to be provided and the overall relationship with the Advisor. The Advisor may also engage for ongoing planning services payable in advance of each quarter, based on the Client's anniversary date. An estimate for total hours and/or costs will be provided prior to engaging for these services.

Retirement Plan Advisory Services

Retirement plan advisory fees are paid quarterly, in advance of each calendar quarter, pursuant to the terms of the retirement plan advisory agreement. Fees are generally based on the market value of assets in the Plan at the end of the prior calendar quarter and charged at an annual rate ranging from 0.25% to 1.00% of Plan assets. Fees may also be billed at a fixed annual rate.

B. Fee Billing

Investment Management Services

Investment advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the end of each calendar quarter. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with Sandbox Financial at the end each quarter. In instances where Clients make additions or withdrawals from an account[s], the Advisor will make an adjustment in the next billing period to reflect the fee difference. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting advisory fees to be deducted by Sandbox Financial to be paid directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Family Office Light Service

Family office service fees are generally payable quarterly in advance and will be calculated by the Advisor or its delegate and either invoiced directly to the Client or deducted from the Client's account(s) at the Custodian.

Use of Independent Managers

For Clients referred by the Advisor to an Independent Manager, the Client's fee may be separately billed or deducted from the Client's account[s] with the respective manager and a portion of the investment advisory fee may be provided to Sandbox Financial.

Financial Planning Services

Hourly planning engagement fees are paid monthly in arrears. Project-based financial planning fees may include an initial payment up front and any fees due will be invoiced by the Advisor upon completion of the agreed upon deliverable[s]. Ongoing retainer engagements are billed quarterly in advance.

Retirement Plan Advisory Services

Fees may be directly invoiced to the Plan Sponsor or deducted from the account of each Plan Participant, depending on the terms of the retirement plan advisory agreement.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties, other than Sandbox Financial, in connection with investments made on behalf of the Client's account[s]. The Client is responsible for all custody and securities execution fees charged by the Custodian, if applicable. The Advisor's recommended custodians do not charge securities transaction fees for ETF and equity trades in Client accounts, but typically charges for certain mutual funds and other types of investments. The fees charged by Sandbox Financial are separate and distinct from these custody and execution fees.

In addition, all fees paid to Sandbox Financial for investment advisory services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of Sandbox Financial, but would not receive the services provided by Sandbox Financial which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Sandbox Financial to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

Investment Management Services

Sandbox Financial is compensated for its services in advance of the quarter in which investment advisory services are rendered. Either party may terminate the investment advisory agreement, at any time, by providing advance

written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Advisor will refund any unearned, prepaid investment advisory fees from the effective date of termination to the end of the quarter. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Use of Independent Managers

In the event that a Client should wish to terminate their relationship with the Independent Manager, the terms for termination will be set forth in the respective agreements between the Client and that Independent Manager. Sandbox Financial will assist the Client with the termination and transition as appropriate.

Financial Planning Services

Sandbox Financial is compensated for its services based on the type of planning engagement entered into by the Client. Either party may terminate the financial planning agreement by providing advance written notice to the other party. The Client may also terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, Clients engaging in hourly planning services and Project Based planning services shall be billed for the percentage of the engagement scope completed by the Advisor. Project Based and Ongoing planning Clients shall be reimbursed for any unearned, prepaid fees promptly. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

Retirement Plan Advisory Services

Sandbox Financial is compensated for its retirement plan advisory services in advance of the quarter in which services are rendered or in arrears at the end of the quarter, as agreed upon in the investment advisory agreement. Either party may request to terminate the retirement plan advisory agreement, at any time, by providing advance written notice to the other party. The Client shall be responsible for advisory fees up to and including the effective date of termination. Upon termination, Sandbox Financial will promptly refund any unearned, prepaid fees to the Client. The Client's investment advisory agreement with Sandbox Financial is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

Sandbox Financial does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

Insurance Agency Affiliation

Certain Advisory Persons are licensed as independent insurance professionals. As an independent insurance professional, an Advisory Person may earn commission-based compensation for selling insurance products, including insurance products offered to Clients. Insurance commissions earned by the Advisory Person are separate and in addition to investment advisory fees. This practice presents a conflict of interest as an Advisory Person who is also an insurance professional will have an incentive to recommend insurance products to the Client for the purpose of generating commissions rather than solely based on the Client's needs. Clients are under no obligation, contractual or otherwise, to purchase insurance products through any Advisory Person affiliated with the Advisor. Please see Item 10 below.

Item 6 – Performance-Based Fees and Side-By-Side Management

Sandbox Financial does not charge performance-based fees for its investment advisory services. The fees charged by Sandbox Financial are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client.

Sandbox Financial does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

Sandbox Financial offers investment advisory services to individuals, families, trusts, estates, charitable organizations, businesses and retirement plans. Sandbox Financial generally does not impose a minimum size for establishing a relationship. The amount of each type of Client is available on Sandbox Financial's Form ADV Part 1A. These amounts may change over time and are updated at least annually by the Advisor.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Investing in securities involves risk of loss that clients should be prepared to bear. Past performance is not a guarantee of future returns. The methods of analysis, tools and strategies utilized by Sandbox Financial may include any of the following:

Fundamental Analysis involves evaluating a security using real data such as company revenues, earnings, return on equity, and profit margins to determine underlying value and potential growth. Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk.

Cyclical Analysis involves analyzing the cycles of the market. Cyclical analysis may involve inflation risk, market risk, and currency risk.

Behavioral Finance proposes psychology-based theories to explain stock market anomalies. It assumes the information structure and the characteristics of market participants systematically influence the investment decisions of individuals as well as the market outcomes.

Modern Portfolio Theory ("MPT") assumes investors are risk averse which means when given two assets with the same expected return the investor will choose the less risky one. An investor is only willing to take more risk if the expected return is greater. Therefore, MPT aims to construct a portfolio of investments that has the best possible expected return for the level of risk.

Asset Allocation is an investment strategy used to balance risk and return according to a client's investment objective, risk tolerance and investment horizon. It is used to manage portfolio volatility by investment in different asset classes.

Diversification is a risk management strategy used to reduce the volatility of a portfolio by investing in different asset classes, different market sectors, and/or different companies.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Sandbox Financial will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals. While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the Advisor's investment approach:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs have a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Bond ETFs

Bond ETFs are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond.

Inverse ETFs (also called "short" funds)

Inverse ETFs seek to deliver the opposite of the performance of the index or benchmark they track. Like traditional ETFs, some leveraged and inverse ETFs track broad indices, some are sector-specific, and others are linked to commodities, currencies, or some other benchmark. Inverse ETFs often are marketed as a way for investors to profit from, or at least hedge their exposure to, downward moving markets.

Alternative Investments

The performance of alternative investments can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Mutual Fund Risks

The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving Sandbox Financial or any of its Supervised Persons. Sandbox Financial values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor and its Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor’s firm name or CRD# 297858.

Item 10 – Other Financial Industry Activities and Affiliations

Insurance Agency Affiliations

As noted in Item 5, certain Advisory Persons are licensed insurance professionals. Implementations of insurance recommendations are separate and apart from one’s role with the Advisor. As an insurance professional, the Advisory Person will receive customary commissions and other related revenues from the various insurance companies whose products are sold. Advisory Persons are not required to offer the products of any particular insurance company. Commissions generated by insurance sales do not offset investment advisory fees. This presents a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by the Advisor or Advisory Persons.

Broker-Dealer Affiliation

The Advisor has entered into a financial arrangement with The Leaders Group, Inc., a FINRA-registered broker-dealer (“The Leaders Group”). Through this arrangement Sandbox Financial will provide fixed fee financial consulting services on commissionable accounts held with The Leaders Group. Leaders Group will serve as the broker of record for legacy commissionable accounts, and all commission revenue attributable to these accounts are paid to The Leaders Group. Advisory Persons of Sandbox Financial will only receive compensation from The Leaders Group for the financial consulting services rendered.

Wealth.Com

Wealth.com provides a holistic estate planning solution that allows users to create, manage and administrate estate plans through a technology platform. Wealth.com facilitates an optional hybrid model where clients can start the process digitally, but still receive a bespoke human experience by consulting live with one of our local T&E attorney partners for a fee. Advisors purchase access to the Wealth platform as an annual license and can then invite or refer an unlimited number of clients to the platform for estate planning.

Wealth.com allows my clients to create estate planning documents to action the legacy objectives that we have designed together. Once referred to Wealth.com, my client enters the Wealth.com platform and is guided through the document creation process by Wealth.com, not by the advisor. Though advisors can refer clients to the platform, I am not involved with the drafting of the legal documents and do not have the ability to make selections for the client. As an advisor, I can receive read-only visibility of the client account so that I can help ensure they complete the process of creating and continue to monitor for optimization opportunities.

From a compliance standpoint, offering a Wealth.com account to a client is no different from any other estate planning referral an advisor can make. Wealth.com prioritizes advisor compliance with industry best practices regarding legal ethics and professional rules of conduct. Wealth.com works with attorneys who are nationally recognized experts in advising technology firms seeking to structure ethically compliant relationships with consumers of legal services and governmental regulators.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Sandbox Financial has implemented a Code of Ethics (the “Code”) that defines the Advisor’s fiduciary commitment to each Client. This Code applies to all persons associated with Sandbox Financial (“Supervised Persons”). The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor’s duties to the Client. Sandbox Financial and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of Sandbox Financial’s Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a

range of topics that address employee ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at (301) 214-4190.

B. Personal Trading with Material Interest

Sandbox Financial allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Sandbox Financial does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. Sandbox Financial does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

Sandbox Financial allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor has adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by Sandbox Financial requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer ("CCO") or delegate. The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While Sandbox Financial allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterward. **At no time will Sandbox Financial, or any Supervised Person of Sandbox Financial, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

Sandbox Financial does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize Sandbox Financial to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, Sandbox Financial does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where Sandbox Financial does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for custody and execution services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost from the Advisor associated with using a custodian not recommended by Sandbox Financial. However, if the recommended Custodian is not utilized the Advisor may be limited in the services it can provide to the Client comparable to other Clients. Sandbox Financial may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, its reputation, and/or location of the Custodian's offices.

Sandbox Financial will generally recommend that Clients establish their account[s] at one of the following Custodians: Fidelity Clearing & Custody Solutions and related entities of Fidelity Investments, Inc. (collectively "Fidelity") or Charles Schwab & Co., Inc ("Schwab"). Fidelity and Schwab are FINRA-registered broker-dealers and member SIPC and will serve as the Client's "qualified custodian" Sandbox Financial maintains institutional relationships with Fidelity and Schwab whereby the Advisor receives economic benefits from Fidelity and Schwab. Please see Item 14 below for additional information.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker-dealer/custodian in exchange for research and

other services. **Sandbox Financial does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from Fidelity and Schwab. Please see Item 14 below.**

2. Brokerage Referrals - Sandbox Financial does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a “directed brokerage basis”, where Sandbox Financial will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective brokerage account[s], unless separately instructed by the Client. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor’s own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client’s account[s]). In selecting the Custodian, Sandbox Financial will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. Sandbox Financial will execute its transactions through the Custodian authorized by the Client.

Sandbox Financial may aggregate orders in a block trade or trades when securities are purchased or sold through the same Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Clients’ accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Advisory Persons of Sandbox Financial and periodically by the CCO. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client’s request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client’s financial situation, and/or large deposits or withdrawals in the Client’s account[s]. The Client is encouraged to notify Sandbox Financial if changes occur in the Client’s personal financial situation that might adversely affect the Client’s investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian’s website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client’s account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 - Client Referrals and Other Compensation

A. Compensation Received by Sandbox Financial

Sandbox Financial does not receive commissions from product sponsors or broker-dealers, except as noted in Item 10 above. Sandbox Financial may refer Clients to various unaffiliated professionals (e.g. attorneys, accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, Sandbox Financial may receive non-compensated referrals of new Clients from various third-parties.

Participation in Institutional Advisor Platform

Fidelity - Sandbox Financial has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s]. Access to the Fidelity platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

Additionally, the Advisor has received financial support from Fidelity to assist the Advisor in the launch of its advisory firm. The following benefits are also received from Fidelity: reimbursement to Clients for transfer costs to the platform/custodian; financing services, receipt of duplicate Client confirmations and bundled duplicate statements; access to a trading desk that exclusively services its institutional participants; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to Client accounts; and access to an electronic communication network for Client order entry and account information.

Schwab - Sandbox has also established an institutional relationship with Schwab through its "Schwab Advisor Services" unit, a division of Schwab dedicated to serving independent advisory firms like Sandbox. As a registered investment advisor participating on the Schwab Advisor Services platform, Sandbox receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client's funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services and financial support to Sandbox that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Access to these services creates a financial incentive for the Advisor to recommend Schwab, which results in a potential conflict of interest. Sandbox believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients.

B. Compensation for Client Referrals

Certain Clients may be referred to the Advisor by either an affiliated or unaffiliated party (herein "Promoter") and receive, directly or indirectly, compensation for the Client referral. In such instances, the Advisor will compensate the Promoter a fee in accordance with Rule 206(4)-1 of the Advisers Act and any corresponding state securities requirements. Any such compensation shall be paid solely from the investment advisory fees earned by the Advisor, and shall not result in any additional charge to the Client.

Item 15 – Custody

The Advisor is authorized to deduct its fees from the Client's account[s] at the Custodian. The Client must place all assets with a "qualified custodian". The Client is required to engage the Custodian to retain all funds and securities and direct the Advisor to utilize that Custodian for security transactions in the account[s]. The Client should review statements provided by the Custodian, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

If the Client gives the Advisor authority to move money from one account to another account, the Advisor may have custody of those assets. In order to avoid additional regulatory requirements, the Custodian and the Advisor have adopted safeguards to ensure that the money movements are completed in accordance with the Client's instructions.

Item 16 – Investment Discretion

Sandbox Financial generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by Sandbox Financial. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by Sandbox Financial will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

Sandbox Financial does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. If the Client elects to direct proxies to the Advisor, such election does not result in the authority for the Advisor to vote such proxies. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither Sandbox Financial, nor its management, have any adverse financial situations that would reasonably impair the ability of Sandbox Financial to meet all obligations to its Clients. Neither Sandbox Financial, nor any of its Advisory Persons, have been subject to a bankruptcy or financial compromise. Sandbox Financial is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$1,200 or more for services to be performed six months or more in advance.

Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER® professional or a CFP® professional, and I may use these and the other certification marks (the "CFP Board Certification Marks") that Certified Financial Planner Board of Standards Center for Financial Planning, Inc. has licensed to CFP Board in the United States. The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning development capstone course.
- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board

Certification Marks:

- **Ethics** – Commit to complying with CFP Board's Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the Client, at all times when providing financial advice and financial planning. CFP Board may sanction CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A Client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the Client.
