Item 4: Advisory Business

Description of Advisory Firm

Fourth Quarter Retirement Strategies, LLC is registered as an Investment Adviser with the State of Massachusetts. We were founded in January, 2020. Jeffrey N. Bograd is the principal owner of Fourth Quarter Retirement Strategies, LLC. Fourth Quarter Retirement Strategies, LLC does not offer investment management services and therefore reports no discretionary or non-discretionary Assets Under Management.

Types of Advisory Services

Project-Based Financial Planning Service

We provide project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

Business Planning: We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

Cash Flow and Debt Management: We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

College Savings: Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

Employee Benefits Optimization: We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

Estate Planning: This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

Financial Goals: We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

Insurance: Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

Investment Analysis: This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

Retirement Planning: Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

Risk Management: A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").

Tax Planning Strategies: Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Decumulation Strategies: This involves various strategies related to the spend down stage of retirement to minimize the chance of outliving one's assets. Advice may include Social Security claiming strategies, pension claiming strategies, use of home equity, income annuities, tax efficient withdrawals, strategic Roth conversions and bucketing strategies.

Charitable Giving Strategies: Advice may include the use of Qualified Charitable Distributions and Donor Advised Funds.

Ongoing Comprehensive Financial Planning

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefit, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

Educational Seminars and Speaking Engagements

We may provide seminars on an “as announced” basis for groups seeking general advice on investments and other areas of personal finance. The content of these seminars will vary depending upon the needs of the attendees. These seminars are purely educational in nature and do not involve the sale of any investment products. Information presented will not be based on any individual’s person’s need, nor does Fourth Quarter Retirement Strategies, LLC provide individualized investment advice to attendees during these seminars.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client’s current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Please note, unless a Client has received the firm’s Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Ongoing Comprehensive Financial Planning

Ongoing Financial Planning consists of an upfront charge of \$1600 and an ongoing fee that is paid monthly, in advance, at the rate of \$200 per month. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer, check or credit card. This service may be terminated by email or letter with 30 days' notice. Upon termination of any agreement, the fee will be prorated and any unearned fee will be refunded to the Client.

The upfront portion of the Comprehensive Financial Planning fee is for Client onboarding, data gathering, and setting the basis for the financial plan. This work will commence immediately after the fee is paid, and will be completed within the first 30 days of the date the fee is paid. Therefore, the upfront portion of the fee will not be paid more than 6 months in advance.

Project-Based Financial Planning Fixed Fee

Project-Based Financial Planning is offered on a fixed fee basis and may be negotiable in certain cases. The fixed fee will be agreed upon before the start of any work and will range between \$500 and \$10,000, depending on complexity and the needs of the Client. The fee will be paid before the work is started, however, Fourth Quarter Retirement Strategies, LLC will not bill an amount above \$500.00 more than 6 months in advance. Fees for this service may be paid by electronic funds transfer, check or credit card. In the event of early termination, either by email or letter, any prepaid but unearned fees based on the percentage of work completed will be refunded to the Client and any completed deliverables of the project will be provided to the Client.

Educational Seminars/ Speaking Engagements

Seminars, webinars and speaking engagements are offered to organizations and the public on a variety of financial topics. Fees range from free to \$5,000 per seminar. Fees are due no later than the 30 days following the conclusion of the Seminar. The fee range is based on the content, amount of research conducted, the number of hours of preparation needed, and the number of attendees. Fees for this service may be paid by electronic funds transfer or check.

In the event the Client decides to cancel or change the date of the event for any reason besides weather or similar unforeseen causes, the Client will be responsible for reimbursement of any non-refundable travel expenses already incurred, and will provide payment for 50% of the Speaker's fee if the cancellation occurs within 10 days of the event. In the event that the Speaker must cancel due to health or similar unforeseen circumstances, the Speaker will make all attempts to find a reasonable alternative engagement date and will absorb any incremental additional costs for obtaining alternative travel arrangements. If an alternative date cannot be obtained, the Client will not be responsible for any travel costs already incurred by the Speaker or any portion of the Speaker's fee.

In the event of inclement weather or flight cancellation, the Speaker shall make all reasonable attempts to make alternative travel arrangements to arrive in time for the presentation. If travel proves impossible, or the event is otherwise canceled, the Speaker's fee is waived, but the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred.

Educational Seminars and Speaking Engagements may be provided pro-bono at Fourth Quarter Retirement Strategies, LLC's discretion.

Other Types of Fees and Expenses

When implementing an investment recommendation, the Client may incur additional fees such as brokerage commissions, transaction fees, and other related costs and expenses. Clients may incur certain charges imposed by broker-dealers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities

transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning services to individuals, and high net-worth individuals.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Material Risks Involved

Fourth Quarter Retirement Strategies, LLC does not manage assets, however investment recommendations may be made as part of the financial planning services.

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Sequence of Return Risk: Sequence of return risk is the danger that the timing of withdrawals from a retirement account will have a negative impact on the overall rate of return available to the investor. This can have a significant impact on a retiree who depends on the income from a lifetime of investing and is no longer contributing new capital that could offset losses.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but

rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Stable Value Funds: A stable value fund is a portfolio of bonds that are insured to protect the investor against a decline in yield or a loss of capital. The owner of a stable value fund will continue to receive the agreed-upon interest payments regardless of the state of the economy. Such funds are an option in some retirement plans such as company 401(k) plans.

Item 9: Disciplinary Information

Criminal or Civil Actions

Fourth Quarter Retirement Strategies, LLC and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Fourth Quarter Retirement Strategies, LLC and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Fourth Quarter Retirement Strategies, LLC and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of Fourth Quarter Retirement Strategies, LLC or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No Fourth Quarter Retirement Strategies, LLC employee is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No Fourth Quarter Retirement Strategies, LLC employee is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Fourth Quarter Retirement Strategies, LLC does not have any related parties. As a result, we do not have a relationship with any related parties.

Fourth Quarter Retirement Strategies, LLC only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Recommendations or Selections of Other Investment Advisers

Fourth Quarter Retirement Strategies, LLC does not recommend Clients to Outside Managers to manage their accounts.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.

- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client’s Securities

From time to time, our firm or its “related persons” may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of Fourth Quarter Retirement Strategies, LLC to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, Fourth Quarter Retirement Strategies, LLC will never engage in trading that operates to the client’s disadvantage if representatives of Fourth Quarter Retirement Strategies, LLC buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

As a fee-only financial planner who does not offer Investment Management Services, we do not have a concern over which broker-dealers a Client may choose in order to implement our investment recommendations.

1. Research and Other Soft-Dollar Benefits

We do not receive Soft-Dollar Benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

As a fee-only financial planner who does not offer Investment Management Services, we do not have a concern over which broker-dealers a Client may choose in order to implement our investment recommendations.

Aggregating (Block) Trading for Multiple Client Accounts

As a fee-only financial planner who does not offer Investment Management Services, we do not block trade Client accounts.

Item 13: Review of Accounts

Jeffrey N. Bograd, Member and CCO of Fourth Quarter Retirement Strategies, LLC, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our Ongoing Comprehensive Financial Planning service. Events that may trigger a special review of assets and investment holdings would be unusual performance, addition or deletions of client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions per client's needs.

Jeffrey N. Bograd, CCO, will also review financial plans for Ongoing Comprehensive Financial Planning Clients on at least an annual basis and/or when a change in the Client's financial situation or planning objectives warrants a comprehensive review of accounts and financial goals. Life events may also trigger a review and adjustment of the Ongoing Financial Plan. Examples of life events may include marriage, birth of a child, divorce, illness or injury, and changing or losing a job.

Fourth Quarter Retirement Strategies, LLC will provide reports to Clients on an annual basis.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

Fourth Quarter Retirement Strategies, LLC does not accept custody of Client funds.

Item 16: Investment Discretion

We do not provide Investment Management Services, and therefore do not exercise discretion.

Item 17: Voting Client Securities

Fourth Quarter Retirement Strategies, LLC does not provide Investment Management Services, and therefore does not vote Client proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.
