Item 4: Advisory Business

Description of Advisory Firm

Waymaker Financial Planning, LLC is registered as an Investment Advisor with the State of Texas. We were founded in December, 2019 and became licensed in 2020. Our firm also operates under the name Waymaker Financial Planning. Michelle M. Vargas is the principal owner of WFP. She is a Certified Financial Planner™ and will perform all Financial Planning and Investment Management services. Because WFP is a new entity, it currently reports no discretionary or non-discretionary Assets Under Management. Assets Under Management were calculated as of March, 2020.

Types of Advisory Services

Investment Management Services

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. At the discretion of WFP, Investment Management Services will be available for Clients using our Financial Planning Services.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

We offer Discretionary and Non-Discretionary Investment Management Services as outlined below:

- **Discretionary Investment Management Services:** WFP will determine a target Portfolio allocation between various asset classes (such as equities and fixed income) that is designed to be consistent with the investment objectives communicated by the Client. WFP will periodically review the Portfolio and implement changes that are deemed appropriate. WFP may change the target asset class allocations, and/or the specific assets held in the Portfolio. WFP will provide its services on a discretionary basis, and will not give advance notice or seek the Client's consent for any changes to the Portfolio. The Client is responsible for informing WFP of any changes in the Client's financial circumstances, investment objectives, and any other relevant information. The Client is responsible for notifying the WFP of any transactions or holdings that appear to be in error or inconsistent with the Client's investment objectives.
- **Non-Discretionary Investment Management Services:** WFP will determine a target Portfolio allocation between various asset classes (such as equities and fixed income) that is designed to be consistent with the investment objectives communicated by the Client. WFP will periodically review the Portfolio and implement changes that WFP deems appropriate. WFP may change the target asset class allocations, and/or the specific assets held in the Portfolio. WFP will provide its services on a non-discretionary basis, and will, therefore, give advance notice or seek the Client's consent for any changes to the Portfolio. The Client is responsible for informing WFP of any changes in the Client's

financial circumstances, investment objectives, and any other relevant information. The Client is responsible for notifying WFP of any transactions or holdings that appear to be in error or inconsistent with the Client's investment objectives.

Project-Based: Modular Financial Planning Service and One-Time Financial Plans

We provide project-based financial planning services on topics such as retirement planning, investment analysis, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning. We work with you to define goals and seek to understand your values and preferences. The scope of the work can be as narrow or as broad as the client desires. Based on the scope of the engagement, we then prepare analyses of your current financial situation and possible future scenarios.

Next, we present our written analysis and recommendations along with an action list. The scope is determined in our complimentary initial consultation and fees will be agreed upon before the start of any work. We take accessibility seriously and aim to make our service model and pricing fair to both parties.

Modular Financial Planning is designed for Clients who desire a narrow focus. This typically involves 2-20 hours of planning work in one or more of the financial planning subject areas below. If you establish limitations in the scope of the plan, your overall financial situation may not be fully addressed.

One-Time Financial Plans are recommended for Clients needing a broad based, more thorough approach. This typically involves 8-20 hours of planning work and more complex cases may require 30 plus hours.

For Hourly and Project-Based services, upon completion of the project the initial engagement is concluded. Clients are encouraged to implement the planning recommendations as soon as reasonably possible. You are free to call and ask questions or get clarification on the issues addressed in the engagement for up to a year after the recommendations meeting at no additional cost subject to reasonable limitations determined by WFP. You may re-engage WFP as needed on an Hourly, Project, or Ongoing Comprehensive Financial Planning basis.

Periodic financial reviews are recommended, and it is the client's responsibility to initiate this review. If the client has not signed a Ongoing Comprehensive Financial Plan service agreement, this is the default relationship after the initial engagement.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan and action steps designed to achieve his or her stated financial goals and objectives. In all instances involving our Financial Planning and Investment Management Services, our Clients retain full discretion over all implementation decisions and are free to accept or reject any recommendations we make.

In general, the financial plan will address any or all of the following areas of concern listed below. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to the following:

- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments). If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state, or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount.
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related

documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts.

We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).
- **Periodic Review:** We strongly urge our Clients to notify us as to any change in their circumstances and to schedule a review any time there is a change (i.e., employment or marital status, inheritance, the birth of a child, etc.). An annual review should be considered even if there is not a substantial life change because tax laws and investment vehicles are always changing. Additional information is available in Item 13 of this brochure.

Ongoing Comprehensive Financial Planning

This service is for Clients who have engaged in a One Time Financial Plan and who need additional assistance with the execution of their financial plan. This service provides ongoing financial advice and involves working with an advisor over an extended period of time for a fixed monthly fee. A financial plan has value only if it is carried out and our aim is to provide value and guide you each step of the way.

By paying a fixed monthly fee, Clients get to work with an advisor who will work with them to implement their plan and complete action items in a timely manner. The advisor will monitor the Client’s progress, plan, recommend any changes, and ensure the plan is up to date.

Upon the engagement of a One Time Financial Plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefit, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients engaging in this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On

an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

In general, after the Recommendations are presented to the Client and the Client has engaged in our Ongoing Comprehensive Financial Planning service, we will meet at least quarterly in Year 1 and at least twice in Year 2 onward, to help with any urgent matters and to educate and assist Clients in implementing the pending action items in these areas:

- Meeting No. 1 Legacy Decisions/Estate Planning; Risk Management/Insurance Review
- Meeting No. 2 Maximizing Cash Flow and Debt Reduction Strategies
- Meeting No. 3 Maximizing Retirement Income; Investments-Controlling Risk, Maximizing, Workplace Benefits
- Meeting No. 4 Minimizing Taxes; Education Planning if needed

Educational Seminars and Speaking Engagements

We may provide seminars on an “as announced” basis for groups seeking general advice on investments and other areas of personal finance. The content of these seminars will vary depending upon the needs of the attendees. These seminars are purely educational in nature and do not involve the sale of any investment products. Information presented will not be based on any Client’s specific needs, nor does WFP provide individualized investment advice to attendees during these seminars.

Engagement With Waymaker Financial Planning

During or prior to your first meeting with our firm, you will be provided a current Form ADV Part 2 firm brochure that includes a statement with regards to our privacy policy (found in Item 11). We will also ensure that we disclose any material conflicts of interest that could be reasonably expected to impair the rendering of unbiased and objective advice.

Should you wish to engage WFP for its advisory services, you must first enter into a written agreement with our firm. Thereafter, discussion and analysis will be conducted to determine your financial needs, goals, holdings, etc. Depending on the scope of the engagement, you may be asked to provide current copies of the following documents early in the process:

- Wills, codicils, and trusts
- Financial data that may include complete tax returns (last 3 years), W-2s or 1099s and/or paystubs
- Written monthly expenses or budget
- Information on retirement plans and benefits provided by your employer
- Statements reflecting current investments in retirement and non-retirement accounts
- Mortgage information
- Auto, home loans, home equity line of credit, and other liabilities
- Insurance policies
- Credit card balances and interest rates
- Student loan documents, balances, and interest rates (if applicable)
- Divorce decree (if applicable)
- Employment or other business agreements you may have in place
- Completed risk profile questionnaires.

It is important that the information and/or financial statements you provide are accurate. Our firm may, but is not obligated to, verify the information you have provided, which will then be used in the advisory process. It is also necessary that you provide us with an adequate level of information and supporting documentation throughout the term of the engagement including, but not limited to: source of funds, income levels, and an account holder or their legal agent's authority to act on behalf of the account, among other information. This helps us determine the appropriateness of our planning and/or investment strategies. It is also very important that you keep us informed of significant changes that may call for an update to your financial and investment plans. Events such as changes in employment, marital status, unexpected windfalls or liabilities, etc, can have an impact on your circumstances and needs. We need to be aware of such events, so that we may make adjustments as necessary in order to help keep you on track toward your goals.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account, by notating these items on the executed advisory agreement.

We want to note that it will remain your responsibility to promptly notify us, in writing, if there is a change in your financial situation and/or investment objectives for the purpose of our reviewing, evaluating, or revising previous account restrictions or firm investment recommendations.

Communication Standards

As a Client, you have access to your advisor in between meetings as urgent or timely matters arise.

Our standard practice is to respond to all Client emails and phone calls received during business hours within 24 hours (excluding weekends). There may be periods of time where your advisor is away from the office and unable to respond to normal inquiries. During these times, Clients will be notified in advance of their advisor's absence and given a specific date when they can expect to hear back from their advisor if they call or email during this time period. In the case of emergencies, the advisor will provide a phone number at which they can be reached for urgent matters.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Waymaker Financial Planning is fee-only. This means all of our compensation comes directly from you, the client. We receive no third party compensation from commissions, products recommended or referral fees. Being fee-only allows us to focus exclusively on your best interest and provide objective recommendations to help you

achieve your financial goals. It can sometimes also result in lower total investment costs. All fees are negotiable at our sole discretion.

Please note, unless a Client has received the firm's Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Investment Management Services

Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Account Value	Annual Advisory Fee
\$0 - \$500,000	1.00%
\$500,001 - \$1,000,000	0.95%
\$1,000,001 - \$2,000,000	0.75%
\$2,000,001 and Above	Negotiable

The annual fees are negotiable, prorated, and paid in arrears on a quarterly basis. The advisory fee is a tiered fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart and applying the fee to the average daily balance over the previous quarter as of the last day of the previous quarter. For example, if the average daily account value was \$750,000 at the end of the quarter, the account would be assessed a quarterly fee of \$1781 ($\$750,000 \times .95\%/4$). Our minimum annual advisory fee is \$500. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

According to Board Rules 116.13(a), any registered investment advisor who wishes to charge 3.0% or greater of the assets under management must disclose that such fee is in excess of the industry norm and that similar advisory services can be obtained for less.

Advisory fees are directly debited from Client accounts or the Client may choose to pay by electronic funds transfer. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at any time. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Ongoing Comprehensive Financial Planning

After a client engages in a One Time Financial Plan which consists of a fee of \$1600 - \$4000, if ongoing assistance in implementing, monitoring, and updating the plan is needed, Clients are encouraged to engage in Ongoing Comprehensive Financial Planning. This service consists of an ongoing fee that is paid monthly, in arrears, at the rate of \$50-\$650 per month. Fees are based on complexity and needs of the client and a billable rate of \$200 per hour. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer. This service may be terminated with written notice at any time. Since fees are paid in arrears, no refund will be needed upon termination of the account and any earned but unpaid fees will be billed for work completed up to the date of termination

The fee for this service may increase at a rate of 0-3% per year to adjust with the cost of living. If there is an increase, the annual increase will occur within 30 days of the client's annual contract date, upon receipt of a signed fee schedule addendum with both parties agreeing to the updated fee. The client will need to respond within 10 business days with the signed addendum agreeing to the new fee for the current year to avoid billing delays.

Project-Based Financial Planning Fixed Fee

Project-Based Financial Planning is offered on a fixed fee basis and will be agreed upon before the start of any work. The fixed fee can range between \$500 and \$4000, based on complexity and needs of the client and a billable rate of \$200 per hour. The fee is negotiable. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, WFP will not bill an amount above \$500.00 more than 6 months in advance. Fees for this service may be paid by electronic funds transfer or check. In the event of early termination any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

Financial Planning Hourly Fee

Hourly Financial Planning engagements are offered at the rate of \$200 per hour, billed in 15 minute increments, with a minimum of two hours per engagement. Half of the estimated fee is due at the beginning of the process, and the remainder of the fee for actual hours worked is due upon completion of the work. The fee may be negotiable in certain cases. In the event of early termination by the Client, any fees for the hours already worked will be due. Fees for this service may be paid by electronic funds transfer or check.

Educational Seminars and Speaking Engagements

Seminars and Speaking Engagements are offered to organizations and the public on a variety of financial topics. Fees range from free to \$6000 per seminar or speaking engagement, or free to \$150 per participant. The price quoted is inclusive of travel expenses. Half of the fees are due prior to the engagement, and the other half is to be paid the day of, no later than the conclusion of the Seminar. The fee range is based on the content, amount of research conducted, the number of hours of preparation needed, and the number of attendees. In the event of inclement weather or flight cancellation, the Speaker shall make all reasonable attempts to make alternative travel arrangements to arrive in time for the presentation. If travel proves impossible, or the event is otherwise canceled, the Speaker's fee is waived, but the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred.

In the event that the Client decides to cancel or change the date of the event for any reason besides weather or similar unforeseen causes, the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred, and will provide payment for 30% of the Speaker's fee if the cancellation occurs within 30 days of the event. In the event that the Speaker must cancel due to health or similar unforeseen circumstances, the Speaker will make all attempts to find a reasonable alternative engagement date and will absorb any incremental additional costs for obtaining alternative travel arrangements. If an alternative date cannot be obtained by the Speaker, the Client will not be responsible for any travel costs already incurred by the Speaker or any portion of the Speaker's fee.

Educational Seminars and Speaking Engagements may be provided pro-bono at WFP's discretion.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

No Show Policy

We understand that life gets busy and that you may have to reschedule or cancel your appointment. We value your time and ask that you please give WFP at least 24 hours notice if you need to cancel or reschedule your appointment. A "no-show" is when a Client misses a scheduled appointment without notifying WFP within 24 hours prior to the scheduled appointment time via phone or text. Clients will be charged an hourly rate of \$200 for the allotted meeting time that was scheduled and resulted in a "no-show".

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and investment management services to Individuals and High Net-Worth Individuals.

We do not have a minimum account size or a networth minimum for financial planning or investment management.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Before designing investment plans for Clients, WFP will evaluate the Client's current investments to determine whether the Client's goals harmonize with the Client's financial objectives. In designing investment plans for Clients, WFP relies upon the information supplied by the Client and Client's other professional advisors. Such information may pertain to the Client's financial situation, estate planning, tax planning, risk management,

short-term and long-term lifetime financial goals and objectives, investment time horizon, and perceived current tolerance for risk. WFP will design and propose a portfolio to help the Client attain the Client's financial goals.

This information will become the basis for the strategic asset allocation plan which WFP believes will best meet the Client's stated personal financial goals. The strategic asset allocation provides for investments in those asset classes which WFP believes will possess attractive combinations of return, risk, and correlation over the long term.

Asset allocation techniques are used which include stocks and bonds of varying characteristics and from both the United States and foreign markets. WFP invests for the long term and expects that not all investments in a given portfolio will perform in unison with other assets in the same portfolio. WFP manages money for the Clients' downside protection, in addition to upside gain. WFP will systematically rebalance the portfolio on a calendar basis if deemed appropriate and will monitor each portfolio's asset allocation on a quarterly basis. WFP may also provide advice on any type of investment held in a Client's portfolio at the inception of the advisory relationship. WFP will explore other investment options at the Client's request. Additionally, WFP reserves the right to advise Clients on any other type of investment that it deems appropriate based on the Client's stated goals and objectives.

Our primary method of investment analysis is Fundamental analysis.

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Investment Strategies

Diversification across multiple asset classes is the primary characteristic of a well-designed portfolio. This objective is to capture the return behavior of an entire asset class. This approach is based upon the major tenets of Modern Portfolio Theory which states that markets are "efficient" and that an investor's returns are determined principally by asset allocation decisions, not market timing, or selection of specific securities. WFP does not rely on economic forecasts, employ timing strategies which shift allocations between stocks, bonds and cash or search for "undiscovered" stocks. Asset classes with different risk/return profiles are combined together in an attempt to both lower the volatility of the overall portfolio and enhance returns.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically low cost mutual funds, index mutual funds, or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Portfolio Review and Rebalancing

Market conditions cause the investment in various asset classes to vary from the initial allocation guidelines established for the Client. Each asset class in which the Client is invested will be reviewed periodically by WFP and rebalanced to a desired weighting when appropriate. When available, new cash flows will be deployed in a manner consistent with rebalancing the asset allocation. In the absence of cash flows, WFP will affect transactions to rebalance the portfolio. Income tax considerations are often reviewed where appropriate in determining rebalancing activity.

From time to time, based on changing economic or life circumstances or new academic research, it is desirable to make changes in asset allocation. Such changes should not, however, be made due to expectations of the relative short-term performance of individual asset classes.

Investment Strategy Performance

Asset class investment performance is cyclical and, therefore, may experience periods of time in which investment objectives are not met. In addition, unless there are extenuating circumstances, patience will often prove appropriate when performance has been disappointing for a particular asset class or the overall portfolio.

For the overall portfolio, the Client should allow a five-year time period or longer for achieving the stated investment return objectives. Shorter time frames contradict the principles of long term investing. Under no circumstances, however, can results be guaranteed.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Advisor's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Concentration Risk: Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Foreign Securities and Currency Risk: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.

Failure to Implement: As a financial planning client, you always have the right to accept or reject any or all of the recommendations made to you. While no advisory firm can guarantee future performance, no plan can succeed if it is not implemented. Clients who choose not to take the steps recommended in their financial plan may face an increased risk that their stated goals and objectives will not be achieved.

Performance of Underlying Manager Risk: We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay interest, but rather are priced at a discount from their face value and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on such factors as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the

following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Advisor has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

WFP and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

WFP and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

WFP and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of WFP or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No WFP employee is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No WFP employee is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

WFP does not have any related parties. As a result, we do not have a relationship with any related parties.

WFP only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Recommendations or Selections of Other Investment Advisors

WFP does not recommend Clients to Outside Managers to manage their accounts.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- **Integrity** - An advisor will provide professional services with integrity. Integrity demands honesty and candor which must not be subordinated to personal gain. Advisors are placed by Clients in positions of trust, and the ultimate source of that trust is the advisor's personal integrity. Allowance can be made for innocent error and legitimate differences of opinion; but integrity cannot co-exist with deceit or subordination of one's principles.
- **Objectivity** - An advisor will provide professional services objectively. Objectivity requires intellectual honesty and impartiality. Regardless of the particular service rendered or the capacity in which an advisor functions, an advisor should protect the integrity of their work, maintain objectivity, and avoid subordination of their judgment.
- **Competence** - Advisors will maintain the necessary knowledge and skill to provide professional services competently. Competence means attaining and maintaining an adequate level of knowledge and skill, and applies that knowledge effectively in providing services to Clients. Competence also includes the wisdom to recognize the limitations of that knowledge and when consultation with other professionals is appropriate or referral to other professionals necessary. Advisors make a continuing commitment to learning and professional improvement.
- **Fairness** - Advisors will be fair and reasonable in all professional relationships. Fairness requires impartiality, intellectual honesty, and disclosure of material conflict(s) of interest. It involves a subordination of one's own feelings, prejudices, and desires so as to achieve a proper balance of conflicting interests. Fairness is treating others in the same fashion that you would want to be treated and is an essential trait of any professional.
- **Confidentiality** - Advisors will protect the confidentiality of all client information. Confidentiality means ensuring that information is accessible only to those authorized to have access. A relationship of trust and

confidence with the client can only be built upon the understanding that the client's information will remain confidential.

- **Professionalism** - Advisors will act in a manner that demonstrates exemplary professional conduct. Professionalism requires behaving with dignity and courtesy to all who use their services, fellow professionals, and those in related professions. Advisors cooperate with fellow advisors to enhance and maintain the profession's public image and improve the quality of services.
- **Diligence** - Advisors will provide professional services diligently. Diligence is the provision of services in a reasonably prompt and thorough manner, including the proper planning for, and supervision of, the rendering of professional services.

Statement Involving Our Privacy Policy

We respect the privacy of all Clients and prospective Clients (collectively termed "clients" in this section only), both past and present. It is recognized that you have entrusted our firm with non-public personal information and it is important that both access persons and clients are aware of firm policy concerning what may be done with that information.

The firm collects personal information about clients from the following sources:

- Information clients provide to complete their financial plan or investment recommendation;
- Information clients provide in engagement agreements and other documents completed in connection with the opening and maintenance of an account;
- Information clients provide verbally; and
- Information received from service providers, such as custodians, about clients' transactions.

The firm does not disclose nonpublic personal information about our clients to anyone, except in the following circumstances:

- When required to provide services our clients have requested;
- When our clients have specifically authorized us to do so;
- When required during the course of a firm assessment (i.e., independent audit); or
- When permitted, or required by law (i.e., periodic regulatory examination).

Within the firm, access to client information is restricted to personnel that need to know that information. All access persons and service providers understand that everything handled in firm offices are confidential and they are instructed not to discuss client information with someone else that may request information about an account unless they are specifically authorized in writing by the client to do so. This includes providing information about a spouse's IRA or a parent's account.

To ensure security and confidentiality, the firm maintains physical, electronic, and procedural safeguards to protect the privacy of client information. The firm will provide our clients with its privacy policy on an annual basis per regulatory guidelines and at any time, in advance, if firm privacy policies are expected to change.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person, is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, advisor to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Retirement Rollovers-No Obligation/Conflict of Interest

A client leaving an employer typically has four options (and may engage in a combination of these options): 1) leave the money in his former employer’s plan, if permitted, 2) roll over the assets to his/her new employer’s plan, if one is available and rollovers are permitted, 3) rollover to an Individual Retirement Account (IRA), or 4) cash out the account value (which could, depending upon the client’s age, result in adverse tax consequences).

Waymaker Financial Planning may recommend an investor roll over plan assets to an IRA.

If the Client had engaged WFP on a Project or Ongoing Comprehensive Financial Planning basis ie, the rollover to an IRA would not result in any more or less compensation for the services rendered. If the Client re-engaged our services on a project basis in the future, fewer accounts to review would likely result in less time spent on your behalf and lower fees.

If the Client had engaged WFP’s Investment Management service and rolled over the plan assets to an IRA, WFP would receive additional compensation as a result of the additional services to be provided. In this scenario, Waymaker Financial Planning has an economic incentive to encourage a Client to roll plan assets into an IRA that Waymaker Financial Planning will manage as part of Investment Management Services.

There are various factors that Waymaker Financial Planning may consider before recommending a rollover, including but not limited to: i) the investment options available in the plan versus the investment options available in an IRA, ii) fees and expenses in the plan versus the fees and expenses in an IRA, iii) the services and responsiveness of the plan’s investment professionals versus those of Waymaker Financial Planning, iv) required minimum distributions and age considerations, and vi) employer stock tax consequences, if any.

No Client is under any obligation to roll over plan assets to an IRA managed by Waymaker Financial Planning.

Trading Securities At/Around the Same Time as Client’s Securities

Our firm and its “related persons” (associates, their immediate family members, etc.) may buy or sell securities the same as, similar to or different from those we recommend to Clients for their accounts. A recommendation made to one client may be different in nature or in timing from a recommendation made to a different client. Clients often have different objectives and risk tolerances. At no time, however, will our firm or any related person receive preferential treatment over our Clients.

In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific securities transactions. Any exceptions or trading pre-clearance must be approved by our Chief Compliance Officer in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Waymaker Financial Planning, LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

The Custodian and Brokers We Use (TD Ameritrade)

Advisor participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade"), member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance, and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

Aggregating (Block) Trading for Multiple Client Accounts

Investment advisors may elect to purchase or sell the same securities for several Clients at approximately the same time when they believe such action may prove advantageous to Clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy is to implement all client orders on an individual basis. Therefore, we do not aggregate or "block" client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe Clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for Clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Item 13: Review of Accounts

For those Clients who have engaged our firm for Ongoing Comprehensive Financial Planning services, we will schedule reviews with you in advance and there is no additional fee. Upon request, updated financial plans are provided.

It will be your responsibility to initiate a review if your agreement does not involve ongoing financial planning support, and these reviews are recommended on at least on an annual basis wherever practical. In addition, the reviews are conducted under a new or amended agreement and will be assessed at our current fee rate.

Client accounts with the Investment Advisory Service will be reviewed regularly on a quarterly basis by Michelle M. Vargas, President, CCO, and CFP®. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s)/custodian for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest. WFP will not provide written reports to Investment Advisory Clients.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

As disclosed under Item 12, above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and

administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the number of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to Clients, Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by the Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

Item 15: Custody

WFP does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which WFP directly debits their advisory fee:

- i. WFP will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to WFP, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

Discretionary and Non-Discretionary Trading:

WFP offers investment advisory services on both a discretionary and non-discretionary basis.

For client accounts managed on a discretionary basis, we maintain discretion over client accounts with respect to securities to be bought and sold, the amount of securities to be bought and sold, and WFP will not give advance notice or seek the Client's consent for any changes to the Portfolio. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. The custodian will specifically limit our authority within your account to the placement of trade orders and the request for the deduction of advisory fees. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

For client accounts managed on a non-discretionary basis, WFP will give advance notice or seek the Client's consent for any changes to the Portfolio. This will require your prior approval for each transaction with regard to the investment and reinvestment of account assets, or for our firm to give instructions to the custodian maintaining your account. Please note

that in light of the requirement for your pre-approval, you must make yourself available and keep us updated on your contact information so that instructions can be efficiently affected on your behalf.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisors are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisors

Michelle M. Vargas

Born: 1967

Educational Background

- 1990 – Bachelor Of Science: Finance, University Of Southwestern Louisiana

Business Experience

- 12/2019 – Present Waymaker Financial Planning, President, CCO, and CFP®
- 09/2019 – 11/2019 Relocation, Home Remodel
- 06/2000 – 08/2019 Heritage Christian Homeschool, Teacher/Academic Advisor
- 03/1997 – 05/2000 Partners Wealth Management, CFP®/Branch Manager
- 05/1995 – 03/1997 Great Western Financial Securities, Financial Advisor
- 01/1994 – 02/1995 Edward Jones, Investment Representative

- 10/1990 – 12/1993 Harcourt Brace Publishing, Accountant//Inventory Specialist

Professional Designations, Licensing & Exams

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- **Education** – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real-world circumstances;
- **Experience** – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- **Ethics** – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- **Continuing Education** – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- **Ethics** – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

NAPFA Registered Financial Advisor:

The National Association of Personal Financial Advisors (NAPFA) is a membership organization. To become a NAPFA-Registered Financial Advisor, the member must meet the following criteria:

- **Fiduciary Standard** - The advisor shall exercise his/her best efforts to act in good faith and in the best interests of the client.
- **Advice Across Disciplines** - NAPFA Registered Financial Advisors are broadly trained to bring together and apply the separate disciplines comprising personal finance—income tax, financial position and cash flow, retirement preparation, estate planning, investments, and risk management. NAPFA Registered Financial Advisors and their associated firms help Clients by offering a full range of coordinated advice on issues surrounding a client’s personal financial situation—not limiting their advice to marketable financial assets alone.
- **Education** - Bachelor’s degree in any discipline from an accredited institution.
- **Specialized Education Requirement** - NAPFA requires the Certified Financial Planner™ credential to meet the advanced, broad-based education in financial planning requirement.
- **Peer Review** - Submit a financial plan for peer review.
- **Continuing Education Requirement** - 60 hours total every two years.
- **Experience** - An individual must have had at least 36 months of experience being primarily engaged in the provision of comprehensive financial planning services.
- **Fee-Only Compensation** - The advisor must be compensated solely by the client with neither the advisor nor any related party receiving compensation that is contingent on the purchase or sale of a financial product. Neither Members nor Affiliates may receive commissions, rebates, awards, finder’s fees, bonuses or other forms of compensation from others as a result of a client’s implementation of the individual’s planning recommendations.

Other Business Activities

Michelle M. Vargas is not involved with outside business activities.

Performance-Based Fees

WFP is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Waymaker Financial Planning, LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Waymaker Financial Planning, LLC, nor Michelle M. Vargas, have any relationship or arrangement with issuers of securities, in addition to what is described in Item 10.

Additional Compensation

Michelle M. Vargas does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through WFP.

Supervision

Michelle M. Vargas , as President, Chief Compliance Officer, and Certified Financial Planner™ of WFP, is responsible for supervision. She may be contacted at the phone number on this brochure supplement.

Requirements for State Registered Advisors

Michelle M. Vargas has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
