

**The Problem:** The majority of Americans are living paycheck to paycheck with limited knowledge or confidence around money, which is the number one cause of stress. These realities have a negative impact on every organization's bottom line.

### GEORGE'S PERSPECTIVE

Money is at the heart of so many problems, which effects personal and career satisfaction. Financial education and philosophy are personal and can be intimidating. I want to help people improve their financial literacy and confidence so they can live the life they want. Companies that support and encourage personal financial stability for their employees and stakeholders create stronger teams.
