Form ADV Part 2A – Firm Brochure

March 9, 2026

This Brochure provides information about the qualifications and business practices of Southshore Financial Planning LLC. If you have any questions about the contents of this Brochure, please contact us at (813) 406-0544. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Southshore Financial Planning LLC is registered as an Investment Adviser with the State of Florida. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about Southshore Financial Planning LLC is available on the SEC's website at www.adviserinfo.sec.gov, which can be found using the firm's identification number, 311328.

Item 2: Material Changes

Since our previous annual filing of this brochure on March 24, 2025, the following material changes made to this version of the brochure:

- Assets Under Management has been updated in Item 4.
- Our hourly rate has been updated in Item 5.
- Details about Portfolio Management as a standalone service have been added into Items 4 and 5.

Future Changes

From time to time, we may amend this Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by securities regulators. Either this complete Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of Southshore Financial Planning LLC.

At any time, you may view the current Brochure online at the SEC's Investment Adviser Public Disclosure website at <http://www.adviserinfo.sec.gov> by searching for our firm name or by our CRD number 311328.

You may also request a copy of this Brochure at any time, by contacting us at (813) 406-0544.

Item 4: Advisory Business

Description of Advisory Firm

Southshore Financial Planning LLC (“SFP”) became registered as an Investment Adviser with the State of Florida in 2020. Christopher Shoup is the principal owner of SFP. As of December 31, 2025, SFP has \$48,407,258 in discretionary and \$5,427,537 in non-discretionary assets under management.

Types of Advisory Services

Wealth Management

SFP’s Wealth Management service is our Ongoing Comprehensive Financial Planning service. When appropriate, and at the client’s election, we include Portfolio Management, Tax Return Preparation, and Estate Document Drafting services for Wealth Management clients. Fees associated with Wealth Management Services are described in Item 5 of this brochure.

Portfolio Management: We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client’s prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Portfolio Management is available as either a standalone service or a component of our Wealth Management service.

Held Away Account Services: We provide an additional service for accounts not directly held in our custody but where we do have discretion and may leverage an Order Management System to implement asset allocation or rebalancing strategies on behalf of the client. These are primarily 401(k) accounts, 529 plans, variable annuities, and other assets we do not custody. We regularly review the current holdings and available investment options in these accounts, monitor the accounts, rebalance and implement our strategies as necessary.

Ongoing Comprehensive Financial Planning: Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, risk management, employee benefit, retirement planning, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, we will review each planning area to ensure accuracy and ongoing appropriateness. Any updates will be implemented as needed.

Limited Scope Financial Planning: For those clients who do not wish to receive a comprehensive financial plan, we offer limited scope financial planning that provides a plan on one or few areas of focus. An example of topics can be found under ‘Limited Scope Financial Planning’ below.

Ongoing Comprehensive Financial Planning

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, employee benefit, retirement planning, risk management, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, we will review each planning area to ensure accuracy and ongoing appropriateness. Any updates will be implemented as needed.

Limited Scope Financial Planning Service

We provide project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, investment planning, and estate and incapacity planning.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

Cash Flow and Debt Management: We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

College Savings: Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

Estate Planning: This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing

appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

Financial Goals: We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

Investment Analysis: This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

Retirement Planning: Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years

Risk Management: A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").

Social Security Benefit Optimization: We analyze the impact of claiming Social Security benefits at different ages and guide clients to the optimal filing strategy for their unique circumstances. The analysis generally will consider total lifetime earnings estimates, the break-even-point, and the impact on their goals.

Tax Planning Strategies: Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Tax Return Preparation

SFP offers tax preparation services for our Clients to assist with the filing of federal and state tax returns for individuals and businesses. We may ask for an explanation or clarification of some items, but we will not audit or otherwise verify Client data. The Client is responsible for the completeness and accuracy of information used to prepare the returns. Our responsibility is to prepare the returns in accordance with applicable tax laws. Fees associated with this service are disclosed in Item 5 of this brochure.

Estate Planning Assistance

We offer Estate Planning services to our clients to assist with general information as it applies to reviews of existing plans, gathering information needed to provide outside firms in the creation of documents, and updating existing plans for clients. Depending on the client needs and desires for estate planning document review, preparation, or updates we will engage with a third-party scrivener service or estate planning attorneys. Clients are not required to utilize any third-party products or services that we may recommend and they can receive similar services from other professionals at a similar or lower cost. The fees associated with estate planning related services are separate and in addition to your ongoing financial planning or advisory fees and are disclosed in Item 5. Fees for this service are either paid directly to the third-party or to SFP (and then SFP remits payment to the third party).

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon each Client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account, by notating these items on the executed advisory agreement.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Please note, unless a Client has received the firm's Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Please note: Clients who engaged SFP for services prior to our Annual ADV Update (filed in March 2025) may be billed under a different fee schedule.

Wealth Management Fee

Fees for Wealth Management services include comprehensive financial planning, portfolio management, and held away account services.

Annual fees for this service range from \$10,000 to \$30,000, billed in arrears either monthly or quarterly. The agreed upon fee will be documented in the executed client agreement. The fee is negotiable under certain circumstances (e.g., responsibilities involved, the client's level of assets and income, relationships with other clients, our expectation of future assets under management, account composition, investment strategy, pre-existing client, account retention, pro bono activities, among other factors).

No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are paid either through direct deduction from Client account(s) held at a qualified custodian, electronic funds transfer, or the Client may choose to pay by check. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Portfolio Management Fee (as a standalone service)

We charge a recurring fixed fee for standalone Portfolio Management. Annual fees range from \$6,000 to \$20,000. Fees are paid quarterly in arrears. The fee range is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract.

Ongoing Comprehensive Financial Planning Fee

Ongoing Comprehensive Financial Planning consists of an ongoing fixed fee. The annual fee ranges from \$6,000 to \$20,000, paid either monthly or quarterly. The fee may be negotiable depending on several factors including: the scope and complexity of the Client needs, the time it takes to implement the actional tasks of the plan, the accountability needs of the client, the size of the household, among other factors. Fees for this service may be paid by electronic funds transfer or check. This service may be terminated with 30 days' written notice. Since fees are paid in arrears, no refund will be needed upon termination of the engagement; however, any earned but unpaid fees will be due upon termination.

No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Limited Scope Financial Planning Fee

Project-Based Financial Planning is offered on a fixed fee basis and can range between \$2,000 and \$10,000, depending on complexity and the needs of the client. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, SFP will not bill an amount above \$500 more than 6 months in advance.

Hourly Financial Planning engagements are offered at an hourly rate of \$400 per hour. The fee may be negotiable in certain cases and is due at the completion of the engagement.

In the event of early termination any prepaid but unearned fees will be refunded and any completed deliverables of the project will be provided to the Client. Fees for this service may be paid by electronic funds transfer or check.

Tax Return Preparation

SFP charges certain clients a separate fee for Tax Return Preparation. Fees for filing a standard tax return start at \$500. Fees for filings that include Schedule C start at \$600. We will meet with the client to determine the exact scope of the engagement and each client's fee will be clearly disclosed in the Tax Return Preparation Agreement. Fees for this service are due upon completion of the project and are paid by electronic funds transfer or check.

Estate Document Review and Drafting Fee

We will bill certain clients for the third party's costs, plus an additional fee at our hourly rate for our involvement in the engagement. The fees for Estate Document Review and Drafting will be determined based on the complexity of the engagement. The fees may be negotiable in certain cases, will be agreed upon at the start of the engagement, and are due at the completion of the engagement. Clients are not required to utilize any third-party products or services that we may recommend and they can receive similar services from other professionals at a similar or lower cost.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals, high net-worth individuals, charitable organizations, corporations or other businesses and other investment advisers.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary method of investment analysis is Fundamental analysis. Our primary strategies are modern portfolio theory and passive investment management.

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Fee-Based Annuities

Annuities are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet a requirement or other long-term goals. An annuity is not a life insurance policy. Variable annuities are designed to be long-term investments, to meet retirement and other long-range goals. Variable annuities are not suitable for meeting short-term goals because substantial taxes and insurance company charges may apply if you withdraw your money early. Variable annuities also involve investment risks, just as mutual funds do.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Concentration Risk: Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

SFP and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

SFP and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

SFP and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of SFP or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Neither SFP or its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

Neither SFP or its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Neither SFP or its management persons have any relationship or arrangement with any related parties.

SFP provides tax preparation services to advisory clients of the firm. For certain clients, fees for tax preparation services are included in the fees paid to SFP. For other clients, fees for tax preparation services are separate and in addition to the advisory fees discussed in Item 5 of this Brochure. Such services are performed by supervised persons of SFP. Clients are not obligated to utilize the tax preparation services of SFP. Neither SFP nor supervised persons of our firm have signatory authority over any Clients' accounts either through advisory services the firm offers or through its tax preparation services.

SFP only receives compensation directly from Clients. We do not receive compensation from any outside source.

SFP does not recommend Clients to Outside Managers to manage their accounts.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard

on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” do not invest in the same securities, or related securities, e.g., warrants, options or futures, which we recommend to Clients.

Trading Securities At/Around the Same Time as Client’s Securities

Because our firm and its “related persons” do not invest in the same securities, or related securities, e.g., warrants, options or futures, which we recommend to Clients, we do not trade in securities at or around the same time as Clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

SFP does not have any affiliation with broker-dealers or custodians. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm. The custodian does not supervise the advisor, its agents, or activities, or its regulatory compliance.

SFP may recommend the services of Altruist Financial LLC (“Altruist”), member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). We are independently owned and operated and are not affiliated with Altruist. Altruist offers independent investment advisers services, which include custody of Client securities, trade execution, clearance and settlement of transactions, and daily research and investment information.

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, SFP may also recommend Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the introducing broker to Apex Clearing Corporation, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the clients' custodian. SFP does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC, nor does SFP receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide our Clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our Clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. The benefits received by Advisor or its personnel do not depend on the number of brokerage transactions directed to Schwab. As part of its fiduciary duties to Clients, Advisor at all times must put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor’s choice of Schwab for custody and brokerage services. This conflict of interest is mitigated as Advisor regularly reviews the factors used to select custodians to ensure our recommendation is appropriate. Following is a more detailed description of Schwab’s support services:

1. **Services that benefit you.** Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our Clients. Schwab’s services described in this paragraph generally benefit you and your account.
2. **Services that may not directly benefit you.** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients’ accounts. They include investment research, both Schwab’s own and that of third parties. We may use this research to service all or a substantial number of our Clients’ accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to Client account data (such as duplicate trade confirmations and account statements)
 - facilitate trade execution and allocate aggregated trade orders for multiple Client accounts
 - provide pricing and other market data
 - facilitate payment of our fees from our Clients' accounts
 - assist with back-office functions, recordkeeping, and Client reporting
3. **Services that generally benefit only us.** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
- Educational conferences and events
 - Consulting on technology, compliance, legal, and business needs
 - Publications and conferences on practice management and business succession
4. **Your brokerage and custody costs.** For our Clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees.

Research and Other Soft-Dollar Benefits

Although not considered "soft dollar" compensation, SFP may receive benefits from Altruist for research services to include reports, software, and institutional trading support. The receipt of additional benefits may give us an incentive to recommend that you maintain your account with Altruist based on our interest in receiving Altruist's services rather than your interest in receiving the best value and the most favorable execution of your transactions. This is a conflict of interest. We believe, however, that our selection of Altruist as custodian and broker is in the best interests of our clients. Our belief is primarily supported by the scope and quality of services Altruist provides to our clients and not services that benefit only us. Additionally, these benefits are offered to all investment advisers that use Altruist for brokerage and execution services and not just our firm. To mitigate the existence of this conflict, on a periodic basis, we conduct a review of the full range and quality of Altruist's services, including execution quality, commission rate, the value of research provided, financial strength and responsiveness to our requests for trade data and other information.

SFP understands its duty for best execution and considers all factors in recommending Altruist to Clients. These research services may be useful in servicing all SFP Clients, and may not be used in connection with any particular account that may have paid compensation to the firm providing such services. While SFP may not always obtain the lowest commission rate, SFP believes the rate is reasonable in relation to the value of the brokerage and research services provided.

Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as “block trading”). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13: Review of Accounts

Christopher Shoup, Principal and CCO of SFP, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. SFP does not provide specific reports to financial planning Clients, other than financial plans.

Portfolio Management clients’ account(s) will be reviewed regularly on a quarterly basis by Christopher Shoup, Principal and CCO. The account is reviewed with regards to the Client’s investment policies and risk tolerance levels.

Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest. SFP will provide written performance reports to Portfolio Management Clients on a quarterly basis (with the exception of held away accounts). We urge Clients to compare these reports against the account statements they receive from their custodian.

Item 14: Client Referrals and Other Compensation

Compensation Received by SFP

SFP is a fee-only firm that is compensated solely by its Clients. SFP does not receive commissions or other sales-related compensation. Except as mentioned in Item 12 above, we do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients.

Client Referrals from Solicitors

SFP does not, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

SFP does not have any affiliation with broker-dealers or custodians. The custodian does not supervise the advisor, its agents, or activities, or its regulatory compliance. SFP does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which SFP directly debits their advisory fee:

- i. SFP will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to SFP, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

SFP can establish a Standing Letter of Authorization or other similar asset transfer authorization arrangements (“SLOA”) with qualified custodians in order for us to disburse funds to accounts as specifically designated by the Client. With a SLOA a Client can typically authorize first-party and/or third-party transfers. If transfers are third-party, SFP complies with each of the requirements and conditions enumerated below:

1. The Client provides an instruction to the qualified custodian, in writing, that includes the Client’s signature, the third party’s name, and either the third party’s address or the third party’s account number at a custodian to which the transfer should be directed.
2. The Client authorizes SFP, in writing, either on the qualified custodian’s form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
3. The Client’s qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the Client’s authorization, and provides a transfer of funds notice to the Client promptly after each transfer.
4. The Client has the ability to terminate or change the instruction to the Client’s qualified custodian.
5. SFP has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the Client’s instruction.
6. SFP maintains records showing that the third party is not a related party of SFP or located at the same address as SFP.
7. The Client’s qualified custodian sends the Client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

Item 16: Investment Discretion

SFP offers investment advisory services on both a discretionary and non-discretionary basis. For client accounts managed on a discretionary basis, we maintain discretion over client accounts with respect to securities to be bought and sold, the amount of securities to be bought and sold, and SFP will not give advance notice or seek the

Client's consent for any changes to the Portfolio. For client accounts managed on a non-discretionary basis, SFP will give advance notice or seek the Client's consent for any changes to the Portfolio.

Investment discretion is explained to clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisers

Christopher Shoup serves as SFP's sole principal. Information about Christopher Shoup's education, business background, and outside business activities can be found on his ADV Part 2B, Brochure Supplement attached to this Brochure.

Other Business Activities - All outside business information, if applicable, of SFP is disclosed in Item 10 of this Brochure and each supervised person's Form ADV Part 2B brochure supplement.

Performance-Based Fees - Neither SFP nor Christopher Shoup is compensated by performance-based fees.

Material Disciplinary Disclosures - No management person at Southshore Financial Planning LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities - Southshore Financial Planning LLC, nor Christopher Shoup, have any relationship or arrangement with issuers of securities, in addition to what is described in Item 10.

- 09/2009 – 10/2020, Charles Schwab Bank, Dual Employee
- 07/2006 – 09/2009, TD Ameritrade, Investment Consultant

Professional Designations

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real-world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Item 3: Disciplinary Information

Christopher Shoup has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Item 4: Other Business Activities

Christopher Shoup is not involved in any other business activities.

Item 5: Additional Compensation

Except as mentioned in Item 4 above, Christopher Shoup does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through SFP.

Item 6: Supervision

Christopher Shoup, as Principal and Chief Compliance Officer of SFP, is responsible for supervision. He may be contacted at the phone number on this brochure supplement.

Item 7: Requirements for State Registered Advisers

Christopher Shoup has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
