Past performance is not indicative of future results. Different types of investments involve varying degrees of risk, and there can be no assurance that the future performance of any specific investment or investment strategy (including those undertaken or recommended by Elmwood), will be profitable or equal any historical performance level(s). All investment strategies have the potential for profit or loss. Investment strategies such as asset allocation, diversification, or rebalancing do not assure or guarantee better performance and cannot eliminate the risk of investment losses. There are no guarantees that a portfolio employing these or any other strategy will outperform a portfolio that does not engage in such strategies. Any target referenced on this Website is not a prediction or projection of actual investment results and there can be no assurance that any target will be achieved. Changes in investment strategies, contributions or withdrawals may materially alter the performance of an individual's portfolio. Historical performance results for investment indexes and/or categories generally do not reflect the deduction of transaction and/or custodial charges, or the deduction of an investment-management fee, which would decrease historical performance results. Economic factors, market conditions, and investment strategies will affect the performance of any portfolio and there are no assurances that it will match or outperform any particular benchmark. Projections, forecasts and estimates referenced on the Website are not purely historical in nature and are therefore necessarily speculative and subject to material variation.

Certain portions of the Website (e.g. newsletters, articles, videos, audio files, commentaries, indexes, etc.) may contain a discussion of, and/or provide access to Elmwood's (and those of other investment and non-investment professionals) positions and/or recommendations as of a specific prior date. Due to various factors, including changing market conditions, such discussion may no longer be reflective of current position(s) and/or recommendation(s). While information presented is believed to be factual and up-to-date, Elmwood does not guarantee its accuracy and it should not be regarded as a complete analysis of the subjects discussed. All expressions of opinion reflect the judgment of the authors as of the date of publication and are subject to change. No User should assume that any such discussion serves as the receipt of, or a substitute for, personalized advice from Elmwood or from any other investment professional. Elmwood is neither a law firm nor accounting firm. Any tax and estate planning information provided is general in nature, which is provided for informational

purposes only, and should not be construed as legal or tax advice. Users, clients, and prospective clients should consult an attorney or tax professional regarding their specific legal or tax situation. Users should not use any Website content as the sole basis for any investment decisions. Rather, a professional advisor should be consulted and/or independent due diligence should be conducted before implementing any of the options referenced in the Website content.
