**Myers Capital Virginia partners with America’s Dream LLC  
to provide Mortgage Financing for Buyers of Remodeled Homes**

**RICHMOND, VIRGINIA** – Myers Capital Virginia, a residential and commercial mortgage company, has announced a new partnership with America’s Dream LLC, a real estate investment company selling remodeled homes in Central Virginia. This partnership will provide buyers of homes with access to reliable financing from an experienced mortgage company.

“We recently expanded our mortgage services from Hawaii to the U.S. Mainland and Virginia, and are pleased to be working with an amazing real estate company like America’s Dream LLC,” says Reed Myers, principal of Myers Capital Virginia. “We are focused on helping buyers with not only financing their home but also with expert mortgage planning. This key benefit will help borrowers meet both their real estate financing needs and overall financial goals.”

Myers Capital Virginia serves Northern Virginia, Richmond, Roanoke, and Virginia Beach areas. Their services include financing for the purchase of residential homes, investment properties, and income-producing commercial real estate including apartment complexes, office buildings, retail spaces and warehouses.

America’s Dream LLC purchases, renovates, and sells remodeled homes, both off-market and those listed on the Multiple Listing Services (MLS). In the current competitive seller’s market, off-market properties are a hot commodity, thus offering an advantage to buyers. If the buyer has an opportunity to participate and make an offer on off-market properties, many times this is done with reduced competition and increases the buyer’s chance of getting an offer accepted. For some properties, buyers may even have the option of selecting interior paint, fixtures, cabinets, and flooring for custom updates.

“We created the company to help alleviate the high demand and limited supply affecting Virginia’s strong housing market,” says Dustin Olverson, co-founder and principal of America’s Dream LLC. “We are able to offer a wide range of remodeled homes to buyers much faster than the many months or years needed for new home construction.”

“Dustin and I started the company to help buyers enjoy the benefits of homeownership and that’s how we came up with our name, America’s Dream,” says Jason Johnson, co-principal of America’s Dream LLC. “We started by purchasing and remodeling a few properties and then selling them. Last year, we sold 13 homes. This year, we expect to sell over 30 houses, helping more buyers enjoy homeownership.”

**ABOUT MYERS CAPITAL VIRGINIA**

Myers Capital Virginia offers residential and commercial mortgages with real estate advisory services to Northern Virginia, Richmond, Roanoke, and Virginia Beach areas. Myers Capital Virginia helps a wide range of borrowers, including first-time homebuyers, existing homeowners looking to refinance, real estate investors, and business owners who need capital.

**ABOUT AMERICA’S DREAM LLC**

America’s Dream LLC is a real estate investment company that purchases, renovates, and sells remodeled homes primarily in Central Virginia. Remodeled homes can be purchased off-market and on the Multiple Listing Services (MLS) through real estate companies.

America’s Dream LLC was founded by Dustin Olverson and Jason Johnson in response to the strong housing market in Virginia with the main purpose of helping buyers enjoy the benefits of home ownership. Combined, they have decades of experience in real estate, investing, and business management.
