## **Item 4: Advisory Business**

---

### **Firm Description**

Prominent Financial Planning LLC (“PFP”) was founded in 2012. Garrett Michael Prom is 100% owner.

PFP provides investment management primarily to individuals and couples. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

PFP is a fee only investment management firm. The firm does not sell annuities, insurance, or other commissioned products.

PFP does not act as a custodian of client assets.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

---

### **Types of Advisory Services**

#### **ONGOING FINANCIAL PLANNING ENGAGEMENT (RETAINER)**

Ongoing Financial Planning Engagements are offered on an ongoing basis. This engagement begins with a thorough understanding of a client's goals. Typically these include achieving financial freedom/retirement, providing for children's education, providing in case of an unexpected death or disability, purchasing large physical assets such as a car or house, exploring investment real estate, etc. The process begins with a thorough evaluation of a client's current financial situation (income, expenses, cash flow, current investment contributions, current investments, types of accounts, etc.). A retirement progress analysis is also performed to gauge how the client is doing with respect to their financial freedom/retirement goals. Additional analyses are also performed depending on the client's goals. Detailed recommendations are made outlining the client's financial plan. PFP is available to assist as needed with the implementation of the financial plan such as assisting with paperwork, calling existing accounts to obtain further information or facilitate transfer (if necessary), making appropriate referrals to other professionals such as in the case of an estate attorney, life insurance provider, CPA, etc. Ongoing Financial Planning Engagements may also include supervising investments. Ongoing Financial Planning Engagements also provide (as the name suggests) ongoing assistance with any and all of the client's personal financial questions and/or decisions. Examples of assistance that has been provided in the past include evaluating which elections to make for employee benefits at annual renewal and with a new job, which car makes the most financial sense to purchase, evaluating whether to pay cash and get a discount or take a loan and pay with 0% interest, evaluate stock options, evaluate different mortgage options, what to do with a sudden influx of cash, newly married/divorced and entire plan needs to be reevaluated, impact of a baby's arrival

and the list goes on and on. The overall purpose of the Ongoing Financial Planning Engagement is that professional advice is always available through someone who knows the client and can help with their personal financial decisions without the fear of requiring additional compensation.

### FINANCIAL PLANNING AND CONSULTING

PFP offers consultation to clients on a specific topic(s) of the clients choosing. Topics may include, but are not limited to budget planning, insurance review, debt reduction, retirement analysis, investment strategy, etc. If financial consulting services are applicable, the client will compensate PFP on a negotiable fixed fee or negotiable hourly fee basis described in detail under "Fees and Compensation" section of this brochure. If conflict of interest exists between the interests of the investment advisor and the interests of the client, the client is under no obligation to act upon the investment advisor's recommendation. If the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through PFP. Financial consultations will be completed and delivered inside of six (6) months.

#### *Hourly Consultation*

PFP offers consultation to clients on a specific topic(s) of the clients choosing. Topics may include, but are not limited to budget planning, insurance review, debt reduction, etc.

#### *Limited Scope Consultation*

PFP offers consultation to clients on a specific topic(s) of the clients choosing. Topics may include, but are not limited to budget planning, insurance review, debt reduction, etc.

### FINANCIAL PLANNING COURSE(S)

PFP offers financial planning course(s) through an online educational platform.

### TOTAL ASSET MANAGEMENT

PFP offers discretionary asset management services to advisory clients on their individual accounts including but not limited to 401K, IRA, 529 and 403b plans.. PFP will offer clients ongoing portfolio management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors. The client will authorize PFP discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement. The accounts will be monitored on a quarterly basis, unless requested otherwise by client.

---

### **Client Tailored Services and Client Imposed Restrictions**

The goals and objectives for each client are documented in our client files. Investment strategies are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without written client consent.

---

### **Wrap Fee Programs**

PFP does not sponsor any wrap fee programs.

---

### **Total Client Assets under Management**

As of the date of this brochure, PFP has \$2.06M of total assets under management.

---

## **Item 5: Fees and Compensation**

---

### **Method of Compensation and Fee Schedule**

PFP bases its fees on a percentage of total asset management, fixed fees, hourly fees, and monthly fees

---

### **ONGOING FINANCIAL PLANNING ENGAGEMENT (RETAINER)**

PFP offers ongoing financial planning according to clients Adjusted Net Worth. This is most beneficial for clients looking for assistance with the ongoing financial decisions they face in their lives. This service also includes total asset management if desired

The monthly fees are outlined as follows:

Adjusted Net Worth	Monthly Fee
<\$100k	\$75
\$100k-\$200k	\$125
\$200k-\$300k	\$175
\$300k-\$400k	\$225
\$400k-\$500k	\$275
\$500k-\$750k	\$350
\$750k-\$1M	\$425
>\$1M	\$500

Adjusted Net Worth = Assets – Liabilities (Please see further definitions below)

Upon initial agreement Assets are defined as all Retirement Accounts, Brokerage Accounts, Bank Accounts, 529 Accounts, and Original Physical Assets with a loan associated with them (house, car, boat, motorcycle, etc.)

Upon initial agreement the Original Value of the Original Physical Assets is equal to the outstanding loan balance resulting in no impact on Adjusted Net Worth

Original Physical Assets will retain their Original Value until sold for sake of calculation purposes

Any New Physical Assets (>\$10,000) (obtained after initial agreement) will be valued at their purchase price regardless of whether or not a loan is associated with them.

Liabilities are any debts that have defined terms and statements that accompany them. Typical liabilities include credit cards, student loans, Physical Asset loans, 401k loans, etc.

If an ongoing financial planning engagement is applicable, the client will compensate PFP on a negotiable monthly basis. The first month's fee is payable upon executing the agreement and each month will be automatically withdrawn on the same day of the month as the first withdrawal (unless the agreement is executed on the 29<sup>th</sup>, 30<sup>th</sup> or 31<sup>st</sup> of the month). If that is the case then each subsequent month will be withdrawn on the first of the month). If conflict of interest exists between the interests of the investment advisor and the interests of the client, the client is under no obligation to act upon the investment advisor's recommendation. If the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through PFP. Ongoing financial planning engagements do not have a defined end date though a detailed plan will be provided to client within six (6) months.

#### FINANCIAL PLANNING AND CONSULTING

PFP offers hourly and limited scope consultations for \$200 per hour.

PFP may at its discretion waive or negotiate the fees for financial planning and consulting if the client implements the plan with PFP. Client may cancel within five (5) business days with no obligation. If client cancels after five (5) business days, PFP will be entitled to a pro-rata fee based on the percentage of work completed. Fees are based on the following:

##### Hourly Consultation

Client will decide how much time they would need for each consultation (minimum 30 minutes). Client will prepay for that amount of time. If consultation goes over allotted time, client will pay for extra time in 15 minute increments.

##### Limited Scope Consultation

Client will be provided an estimated fee prior to engagement. Fees are payable 50% upon executing the agreement, with the balance due upon delivery of the plan or consultation.

## FINANCIAL PLANNING COURSE(S)

PFP offers financial planning course(s) through an online educational platform. The current course offerings include:

### Advanced Planning for your Financial Future

This course is available for a negotiable fee of \$895 which includes 2 hours of hourly consulting (worth \$400). The \$895 fee is charged to the client upon enrollment. Effectively \$495 is going towards the course of which the client has instant access and \$400 towards the hourly consulting which is generally used upon completion of the online portion of the course.

## TOTAL ASSET MANAGEMENT

PFP offers discretionary asset management services to advisory clients on their individual accounts including but not limited to 401K, IRA, 529 and 403b plans.. PFP will offer clients ongoing portfolio management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors.

The fees for these services will be based on a percentage of Total Assets (Assets Under Management + Assets Held Away) as follows:

Total Assets	Quarterly Fee
The First \$500,000	.25%
The Next \$500,000	.20%
Over \$1,000,000	.15%

The quarterly fee may be negotiable. Accounts within the same household may be combined for a reduced fee. Fees are billed quarterly in arrears based on the amount of assets managed as of the close of business on the last business day of each quarter. Quarterly advisory fees deducted from the clients' account by the custodian will be reflected on the quarterly statement. The fees must be paid within ten (10) days following the conclusion of the calendar quarter for which the account is being billed. Lower fees for comparable services may be available from other sources. Clients may terminate their account within five (5) business days of signing the Investment Advisory Agreement with no obligation. Clients may terminate advisory services with thirty (30) days written notice. PFP will be entitled to a pro rata fee for the days service was provided in the final quarter. Client shall be given thirty (30) days prior written notice of any increase in fees, and client will acknowledge, in writing, any agreement of increase in said fees.

---

### **Client Payment of Fees**

Fees for ongoing financial planning engagements (Retainer) are due as follows. The first month's fee is payable upon executing the agreement and each month will be

due on the same day of the month as the first withdrawal (unless the agreement is executed on the 29<sup>th</sup>, 30<sup>th</sup> or 31<sup>st</sup> of the month. If that is the case then each subsequent month will be withdrawn on the first of the month). Fees are often deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their account.

Fees for financial planning and consulting are due 50% in advance.

Investment management fees are billed quarterly, in arrears, meaning that we invoice you after the three-month billing period has ended. Payment in full is expected within ten (10) days following the conclusion of the calendar quarter which the account is being billed for. Fees are often deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

---

### **Additional Client Fees Charged**

Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities and exchange-traded funds. These charges may include mutual fund transactions fees, postage and handling and miscellaneous fees (fee levied to recover costs associated with fees assessed by self-regulatory organizations). These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

PFP, in its sole discretion, may charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

For more details on the brokerage practices, see Item 12 of this brochure.

---

### **Prepayment of Client Fees**

PFP charges 50% in advance for financial planning and consulting. PFP charges the first month in advance for ongoing financial planning engagement. Services are completed and delivered inside of six (6) months.

---

### **External Compensation for the Sale of Securities to Clients**

PFP does not receive any external compensation for the sale of securities to clients, nor do any of the investment advisor representatives of PFP.

---

## **Item 6: Performance-Based Fees**

---

### **Sharing of Capital Gains**

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

PFP does not use a performance-based fee structure because of the conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

## **Item 7: Types of Clients**

---

### **Description**

PFP generally provides investment advice to individuals and families.

Client relationships vary in scope and length of service.

---

### **Account Minimums**

PFP does not have any account minimums.

## **Item 8: Methods of Analysis, Investment Strategies and Risk of Loss**

---

### **Methods of Analysis and Investment Strategies**

Security analysis methods may include fundamental analysis, technical analysis, and cyclical analysis. Investing in securities involves risk of loss that clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis involves evaluating a stock using real data such as company revenues, earnings, return on equity, and profits margins to determine underlying value and potential growth. Technical analysis involves evaluating securities based on past prices and volume. Cyclical analysis involves analyzing the cycles of the market.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

---

### **Investment Strategy and Method of Analysis of Material Risks**

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement, Risk Tolerance or similar form that documents their objectives and their desired investment strategy.

Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk. Risks involved in technical analysis are inflation risk, reinvestment risk, and market risk. Cyclical analysis involves inflation risk, market risk, and currency risk.

Other strategies may include long-term purchases, short-term purchases, trading, and option writing (including covered options, uncovered options or spreading strategies).

---

## **Security Specific Material Risks**

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with PFP:

- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Market Risk:* The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- *Business Risk:* These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Financial Risk:* Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

---

## **Item 9: Disciplinary Information**

---

### **Criminal or Civil Actions**

The firm and its management have not been involved in any criminal or civil action.

---

### **Administrative Enforcement Proceedings**

The firm and its management have not been involved in administrative enforcement proceedings.

---

### **Self-Regulatory Organization Enforcement Proceedings**

The firm and its management have not been involved in legal or disciplinary events that are material to a client's or prospective client's evaluation of PFP or the integrity of its management.

---

## **Item 10: Other Financial Industry Activities and Affiliations**

---

### **Broker-Dealer or Representative Registration**

Neither PFP nor any of its employees are registered representatives of a broker-dealer.

---

### **Futures or Commodity Registration**

Neither PFP nor its employees are registered or has an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

---

### **Material Relationships Maintained by this Advisory Business and Conflicts of Interest**

Managing Member Garrett Prom does not maintain any material relationships. Therefore, there is no conflict of interest.

---

### **Recommendations or Selections of Other Investment Advisors and Conflicts of Interest**

PFP does not recommend or select other investment advisors. Therefore, there is no conflict of interest.

---

## **Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

---

### **Code of Ethics Description**

The employees of PFP have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of PFP employees and addresses conflicts that may arise. The Code defines acceptable behavior for employees of PFP. The Code reflects PFP and its supervised persons' responsibility to act in the best interest of their client.

One area which the Code addresses is when employees buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our clients. We do not allow any employees to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our clients.

PFP's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other employee, officer or director of PFP may recommend any transaction in a security or its derivative to advisory clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

PFP's Code is based on the guiding principle that the interests of the client are our top priority. PFP's officers, directors, advisors, and other employees have a fiduciary duty to our clients and must diligently perform that duty to maintain the complete trust and confidence of our clients. When a conflict arises, it is our obligation to put the client's interests over the interests of either employees or the company.

The Code applies to "access" persons. "Access" persons are employees who have access to non-public information regarding any clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to clients, or who have access to such recommendations that are non-public.

The firm will provide a copy of the Code of Ethics to any client or prospective client upon request.

---

### **Investment Recommendations Involving a Material Financial Interest and Conflict of Interest**

PFP and its employees do not recommend to clients securities in which we have a material financial interest.

---

### **Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest**

PFP and its employees may buy or sell securities that are also held by clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide PFP with copies of their brokerage statements.

The Chief Compliance Officer of PFP is Garrett Prom. He reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of employees does not affect the markets and that clients of the firm receive preferential treatment over employee transactions.

---

### **Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest**

PFP does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, employees may buy or sell securities at the same time they buy or sell securities for clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide PFP with copies of their brokerage statements.

The Chief Compliance Officer of PFP is Garrett Prom. He reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of employees does not affect the markets and that clients of the firm receive preferential treatment over employee transactions.

## **Item 12: Brokerage Practices**

---

### **Factors Used to Select Broker-Dealers for Client Transactions**

PFP may recommend the use of a particular broker-dealer or may utilize a broker-dealer of the client's choosing. PFP will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. PFP relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by PFP.

- *Directed Brokerage*

In circumstances where a client directs PFP to use a certain broker-dealer, PFP still has a fiduciary duty to its clients. The following may apply with Directed Brokerage: PFP's inability to negotiate commissions, to obtain volume discounts, there may be a disparity in commission charges among clients, and conflicts of interests arising from brokerage firm referrals.

- *Best Execution*

Investment advisors who manage or supervise client portfolios on a discretionary basis have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. The firm does not receive any portion of the trading fees.

- *Soft Dollar Arrangements*

PFP utilizes the services of custodial broker dealers. Economic benefits are received by PFP which would not be received if PFP did not give investment advice to clients. These benefits include: A dedicated trading desk, a dedicated service group and an account services manager dedicated to PFP's accounts, ability to conduct "block" client trades, electronic download of trades, balances and positions, duplicate and batched client statements, and the ability to have advisory fees directly deducted from client accounts.

A conflict of interest exists when the firm receives soft dollars. This conflict is mitigated by the fact that the Investment Advisor Representatives have a fiduciary responsibility to act in the best interest of his clients and the services received are beneficial to all clients.

---

## **Aggregating Securities Transactions for Client Accounts**

PFP is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of PFP. All clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

## **Item 13: Review of Accounts**

---

### **Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved**

Account reviews are performed quarterly by Garrett Prom, Chief Compliance Officer. Account reviews are performed more frequently when market conditions dictate.

---

### **Review of Client Accounts on Non-Periodic Basis**

Other conditions that may trigger a review of clients' accounts are changes in the tax laws, new investment information, and changes in a client's own situation.

---

### **Content of Client Provided Reports and Frequency**

Clients receive account statements no less than quarterly for managed accounts. Account statements are issued by the Advisor's custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

## **Item 14: Client Referrals and Other Compensation**

---

### **Economic benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest**

PFP does not receive any economic benefits from external sources.

---

### **Advisory Firm Payments for Client Referrals**

PFP does not compensate for client referrals.

## **Item 15: Custody**

---

### **Account Statements**

All assets are held at qualified custodians, which means the custodians provide account statements directly to clients at their address of record at least quarterly.

## **Item 16: Investment Discretion**

---

### **Discretionary Authority for Trading**

PFP accepts discretionary authority to manage securities accounts on behalf of clients. PFP has the authority to determine, without obtaining specific client consent, the securities to be bought or sold, and the amount of the securities to be bought or

sold. However, PFP consults with the client prior to each trade to obtain concurrence if a blanket trading authorization has not been given.

The client approves the custodian to be used and the commission rates paid to the custodian. PFP does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.

## **Item 17: Voting Client Securities**

---

### **Proxy Votes**

PFP does not vote proxies on securities. Clients are expected to vote their own proxies. The client will receive their proxies directly from the custodian of their account or from a transfer agent.

## **Item 18: Financial Information**

---

### **Balance Sheet**

A balance sheet is not required to be provided because PFP does not serve as a custodian for client funds or securities and PFP does not require prepayment of fees of more than \$500 per client and six months or more in advance.

### **Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients**

PFP has no condition that is reasonably likely to impair our ability to meet contractual commitments to our clients.

### **Bankruptcy Petitions during the Past Ten Years**

Neither PFP nor its management has had any bankruptcy petitions in the last ten years.

## **Item 19: Requirements for State Registered Advisors**
